# Celebrating Newspapers in Education Week

Newspapers in Education is a nationwide system of cooperation between newspapers and schools.

According to a Newspaper Association of America Foundation report, NIE helps students improve standardized test scores when newspaper content is used in the classroom and at home on a regular

basis.

Junior Journal is a showcase for students' writing and artwork produced in honor of Newspapers in Education Week. Students submitted stories, photos and drawings on the following topics:

- What I want to be when I grow up
- My favorite game or toy

Staff members at the Daily Journal selected the winning entries, taking into account overall quality, creativity and insight for the grade level.

First-place winners won \$50, second place earned \$25 and third place \$15.

Students also designed advertisements for various businesses. Participating businesses chose one ad

to be published in the Junior Journal. The Daily Journal advertising staff chose three winners from among the ads that are published in this magazine.

First place won \$50, while second place earned \$25 and third place \$15.

The winners, along with the page their work can be found on, are listed below.

## Stories — What I want to be when I grow up

1. Emma Bright, Grade 6, Clark Pleasant Middle School, Page 5
2. Andrew Wiese, Grade 5, Greenwood Christian Academy, Page 37
3. Yohit Kannan, Grade 1, Isom Elementary, Page 32

## Stories — My favorite game or toy

1. Ethan Grant Schreiber, Grade 4, Creekside Elementary, Page 31
2. Paige Dingus, Grade 5, Greenwood Christian Academy, Page 46
3. Samuel Bright, Grade 4, Whiteland Elementary, Page 28

## Drawings — What I want to be when I grow up

1. Maci Hafen, Grade 2, Isom Elementary, Page 1
2. Mikhaila Bowers, Grade 4, Whiteland Elementary, Page 48
3. Divyank Pandy, Grade 3, Northeast Elementary, Page 25

## Drawings — My favorite game or toy

1. Jesse Nuan, Grade 2, Northeast Elementary, Page 1
2. Jon Reel, Grade 4, Whiteland Elementary, Page 48
3. Rachel Thenhoi, Grade K, Isom Elementary, Page 1

## Design-an-ad contest

1. Gracie Burton (Who So Ever Will), Grade 5, East Side Elementary, Page 9

Coder

By Jude Moore

Third grade

In my opinion being a coder is the job for me. One reason I feel this way is I've wanted to be a coder because I love computers and gaming. Also I have a big imagination. Another reason I feel like being a coder is because I can do it at home and the gaming community is very creative and cool. In conclusion, being a coder would be the best job because of creativity and community.

Fashion Designer

By Josephine W.

Second grade

In my opinion, I want to be a fashion designer. One reason I feel this way is because I love fashion and I love to design clothes for people. Also, I would love to learn how to use a sewing machine. Another reason I feel, first I have to learn how to use one first when I do I am going to get some fabric and make clothes.

Make-up Artist

By Isla P.

First grade

I want to be a make-up artist. One reason I feel this way is that I like to do make-up. Also I like to do eye shadow. Another reason I feel like to be a make-up artist is it is pretty. A make-up artist is a good job for me.

Zookeeper

By Cali M.

Third grade

If you ask me being a zookeeper looks fun. I love being with animals. That's why I want to be a zookeeper. Also, it is very fun to be around animals. They are really energetic like me. Whenever I get stressed I go near my dogs. They are fluffy and sometimes calm. I really want to be a zookeeper.

**Center Grove Elementary****FIFTH GRADE****TEACHER: MCKENZIE HAROLD**

When I grow up

By Rishon Khisty

When I grow up, I want to become an aeronautics engineer because my favorite

subjects are Math and Science and work in NASA, because NASA requires a lot of Math and Science. I want to be an aeronautics engineer because NASA has many aeronautics engineers doing a lot of exciting work and projects.

I want to go to Purdue University because the famous astronaut Neil Armstrong went to Purdue University, and after that Neil Armstrong was the first person to walk on the moon. Another reason I want to work in NASA is because I love the solar system, and NASA does all kinds of things about the solar system like sending people to the international space station and sending people to the moon and will also be sending people to Mars soon. Also, NASA is located in Florida and I want to live in Florida and where NASA has many buildings.

Working at NASA will be interesting as it helps other companies like Boeing which is at the forefront of aerospace research and making new products. I love everything about rockets, like how powerful they are, they have multiple uses, they go very fast, and they have, and they will help humans reach other planets and galaxies.

NASA is an exciting organization, because they have, and they are going

to explore the moon. I love the moon because it is interesting to me how the astronauts jump so high on the moon and how they got to the moon.

NASA has made it possible for humans to travel into space to the International Space Station, moon, mars, asteroids, and other galaxies. Most of the time astronauts go to the International space station or the ISS and there they do all kinds of scientific research like growing food in the International Space Station, and I want to take those astronauts to the International Space Station by building the rockets that take them there faster and in less time.

An exciting next step for NASA is their focus on exploring Mars which is a new planet that we have never gone to before but there are pictures that rovers have taken where we can see how Mars looks like. And now they are building a new rocket called the SLS or the Space Launch System and they are building the Orion capsule on the SLS. And one day when I grow up, I want to build an even more advanced SLS and new capsules for space travel.

That is why I want to become an aeronautics engineer and work in NASA so that I will have a job that I am passionate

about and will also help humans in the future.

#### Game Time

By Ella Keeton

In the future, I want to be a reporter. This is how I plan to do it; The best game in NFL history is the NFC title game between the San Francisco 49ers and the Dallas Cowboys. This game was played at Candlestick Park on January 10, 1982. With 58 seconds left in the game, the 49ers faced 3rd down and 3 yards to gain on the Cowboys 6-yard line. San Francisco's wide receiver, Dwight Clark, made a 6-yard touchdown pass from quarterback Joe Montana. This amazing catch made the Cowboys unable to win. The first half of the game, the Cowboys shockingly took the lead with a score of 10-7. But towards the second half of the game, the 49ers took the lead with a score of 28-27. This game was only won by 1 point. This game is known as the greatest game in NFL history.

When I grow up

By Ambraya Gilden

What I want to be when I grow up is an artist because I love to draw and color. If I was an artist, I would be drawing day and night. I love to draw, color, and make digital art. If I was an artist I'd be happy if I was broke or rich as long as I was having fun and happy. You know how much artists charge per art? It's \$100 or more. I won't charge as much. I would charge \$10 to \$90 But if I had to, I would raise it. This is why I want to be an artist great or not poor or rich.

When I grow up

By Lexi Mayes

When I grow up I want to be a worker at Starbucks. I want to be this because I can make special drinks and I love the drinks from Starbucks.

My next reason I want to work there is because my family likes it too but that is not the only reason. Another reason is because I want to walk into work and smell something delicious.

I also want to be it because It has a drive thru and ever since I was 3 I always wanted to work at a drive thru and working at starbucks would be fun if I could have the opportunity to make drinks and work at the drive thru.

My final reason why I want to work at Starbucks is because I get to customize drinks how other people would want it and maybe I could try the kind they like. That is why I want to work at Starbucks when I grow up.

When I grow up

By Bentley Goff

When I grow up I want to be the running back for the Dallas Cowboys. The Dallas Cowboys are a good football team and I want to be their running back because they don't give up and they keep trying. I want to be on a team that can keep trying and show grit. When I was younger I did not watch football and I didn't play either until my mom met my dad and he brought me into football. He likes the Dallas Cowboys and I want to be like him. He got me to football and now I play cornerback and play wing back.

When I grow up

By Delilah Staggs

Do you want to be a teacher? Well, I want to be a speech teacher. The reason I want to be a speech teacher is because I am in speech right now, and I admire my speech teacher, and how hard working she is. I also think how many kids will be inspired by me. So that is why I want to be a speech teacher.

When I grow up

By Elin Lewis

What I want to be when I grow up is a nurse practitioner because I like meeting new people every day. I like helping people when they get hurt or when they are sick. I can cheer them up even if they have to stay in bed, or have to stay home all day. I can show people how to have fun even though they are hurt, sick, and have to stay at home, they can do a puzzle, game, watch a movie, and even a paint, and I can help them get on a movie for them to watch, and I can get a game out for them and even play with them, and I can help them get the puzzles out, and even get the paint out for them to paint a pretty pictures. That is why I want to be a nurse practitioner.

## Soccer Fan

By Namay Jain

Soccer has always been my favorite sport and I have been watching it for about 1 year now ever since I was 9. Usually when I would watch soccer games mostly like "the world cup, the ufa euro cup, and copa america cup. I always wore soccer jerseys like my favorite soccer player Neymar jr.

Back in the past my favorite soccer team Brazil won 5 fifa (fifa means soccer) world cups. Brazil has won the most world cups in history, and my second favorite soccer team France has won 2 fifa world cups. Every four years is the fifa world cup and there was one in 2022 and France made it to the finals but lost in a penalty shootout after a 3-3 tie. But since my favorite teams have won the world cup a lot it inspired me to play and watch it.

I have played in a soccer league once and it was good. We won a lot of our matches and once tied. Another reason it inspired me to play is France won the 2018 world cup the one right before the 2022 one. Since my favorite team could win a lot it made me think I can win. One really big reason is the best soccer player of all time is the goat (which means the

best in a certain career) in soccer was in Brazil and his name was "Pele". Pele was the only player in the world to win 3 world cups and Brazil was the second team in the world to win two world cups in a row behind Italy.

Sadly Pele died December 29th 2022 just four days after christmas and he died at age 82 in his hospital due to cancer. My brother is really good at soccer too. He did a bunch of soccer leagues and express soccer as well. Since he is really good I sometimes practice with him and my brother's friend is amazing at soccer and got invited to spain to tryout for a club and he could play for the 2026 fifa world cup because he will be old enough to play then so that inspired me to keep playing soccer or as other countries call it "football" and I have developed love for soccer and I will play for it when it opens up in spring. Also my favorite soccer club psg has my favorite player neymar jr and other good players. I am inspired and built love for soccer.

Thank You

Why I like Soccer So Much

By: Colton Arreola

I officially started playing soccer when I

was 8 years old. I started playing soccer when I was 4 but I was a cry baby and got scared during tryouts. I wish I would have played instead of being a cry baby but no, I just had to be scared. 2 years ago I was playing with my friend and he told me I should sign up for soccer. At first I said no, but then I decided to give it a shot and I ended up being really good.

My Soccer Skills Now and Then

In my first season we were on the green team. We were the worst team in the league but we still ended up having a great time. I was the goal keeper but I sometimes played different positions. In my second season we were on the navy blue team. This time we totally dominated. We were the best team in the league and nobody could beat us. We did not lose a single game but in the last game, we tied the second best team. We were all a little mad, but we decided that they could have the win because we did totally dominate them before. We were also named the, "Sharks" and we said that word with all of our pride. I played mostly defense, but I played a little forward. The season I am playing right now, green and white team, we look to be pretty good but not the best. There are 7 players on my team,

including me. This is a winter season so we are playing indoors but there are only 3 other teams because not many people decided to play this season. This was my essay and I hope whoever read it enjoyed it as much as I enjoyed making it. It was very fun to write all of this and I don't really care if I get the money prize or not. Because money doesn't make happiness. Writing does.

My favorite game

By Alexis Stewart

My favorite game is Clue. I play with my mom and brother. I like Clue because you can figure out who the murderer is. Also you can have characters and weapons and i think that is neat. There are so many different rooms too. One more thing, your character has a color. This is why I like Clue.

Clark Pleasant Middle School  
SIXTH GRADE

TEACHER: JENNIFER GRAGG

When I grow up

By Emma Bright

When I grow up I would like to be a first grade teacher and an author. I would

really like to do these things because it inspires other people. For example, when I read Harry Potter and the Sorcerer's Stone, I was really inspired. So now, I write too. Also, first grade is the very beginning of your school career, and if you get a teacher you don't enjoy, you would really start off school on the wrong foot.

Giving the joy that I felt when I first started reading the Harry Potter series is my motivation for becoming an author. It would really be great to know that I possibly inspired the next great author to write. Furthermore, being an author would be extremely fun because even on the toughest days, I could visit the moon and swim with fish in the bottom of the deepest ocean just through my writing and imagination. Those are just a couple reasons I would love to be an author.

I want to be a first grade teacher because I want to teach kids not only math and reading, but to love school. First grade is the very start of your school career, and you will be in school for many years after that. If you had an uninspiring teacher at the start, then you may never love school again. When I was in first grade, I had a very fun teacher. She turned all our lessons into a game, and

found a way to make everything fun. I remember one time in class, she turned our work into a scavenger hunt. We had to search all over the room to find our math problems. Another time, she gave us a line and we had to draw a picture out of that line and make a story about it. Even five years later, I remember that today. I would like to leave those sorts of happy memories with kids.

Being an author and a teacher is the perfect career combination for me. Doing things I love will never feel like work.

**Grassy Creek Elementary**  
**SECOND GRADE**  
**TEACHER: KATIE BIDDLE**

When I grow up  
By Kyla Tyler

I want to be a teacher when I grow up because being a teacher is so cool! They try so hard and have a hard time with some students but that is why I want to help! They have so many responsibilities and I want them too! Do you want to be a teacher?

When I grow up  
By Japji Virk  
I think I want to because I can tell anyone I do something and move and you can do anything.

When I grow up  
By Dakota Sgro-Campell  
What do I want to be when I grow up? I would like to be a police officer. So if there is a crime in the city I can put them in jail and make the city good.

When I grow up  
By Emile Msafiri  
I want to be a cop because you can help people when you are a cop.

When I grow up  
By Dilsher Kahlon  
Have you ever been a firefighter before? I believe that being a firefighter is the best job than any other job because they put down big fires. They also rescue people.

When I grow up  
I want to be a firefighter because they evacuate people from fires when it is really dangerous. They put cones out so people know where to go. They use

helicopters to make it not hot.

When I grow up  
I want to be firefighter because they save that fell in sinkholes. And they rescue people who have survived after a volcano erupted. Now you should be a firefighter because they put down huge fires.

By Gurnoor  
Have you ever wanted to design build-  
ings? Well I've always loved to design  
building! When I grow up, I want to be a  
engineer! Here is why!  
First, I like to make creative things.  
Next, I want to build a koenigsegg dealer  
ship.  
Last, I want to bulid a ferrari dealer ship.  
That's why I want to be a engineer when  
I grow up.

What I want to be when I grow up  
By Jaycee  
What I want to be when I grow up is a  
nurse. Here's why!  
My first reason is my mom was a nurse  
and I want to be just like her.  
My second reason is I love helping  
people so I think a nurse would be a great  
fit for me.  
My last reason is because I think I really  
like sorting stuff out so I think I would be  
pretty good at sorting the stuff out.

And that is why I want to be a nurse  
when I grow up.

I want to be a you tuber when i grow up!  
This is why! My first reason is. You will be  
famis! My second reason is. You will be a  
million air! My last reson is. You will have  
fans!

What I want to be when I grow up  
By Easton  
I want to be in the military. Here's why  
I like to protect people. It's simple and  
easy and I want to become a bird in the  
sky. It's super high. I will also make some  
friends to and foes i'll fight for the first time  
i'll practice a lot as a kid that should help  
out enough into i am a adult i've talked to  
a fighter fire a police man and a hospital  
man/girl also i've got to see the inside of

a fire truck they have a lot of equipment  
it's very helpful for fires there was a big  
hose they have axes to chop down doors  
in case if its broken that taught me a lot  
from just that like half of it so when i'm  
in military i'll just have half not a lot just  
like 4/6 months it would have been like  
1/2 years so i'm very lucky unlucky people  
they have 4/6 years REALLY UNLUCKY  
RIGHT so i won't be there to long hope-  
fully military you use nukes blasters and  
grenades. Il'l work out when i'm an adult  
i'll use a punching bag to work things out  
and to get very strong i'll be way stronger  
than before I WILL PROTECT AMERICA.

What I want to be when I grow up  
By Elizabeth  
What I want to be when I grow up! Have  
you ever wanted to take care of pets? well  
I've always loved animals! When I grow up  
I want to be a vet! Here is why! First you  
can see if you are allergic to them. Next  
you can hold them. Last you can pet them  
.that's way you should be a vet.

Being an Artist  
 By Jaycie Alexander  
 What do you want to be when you grow up? I would like to be a famous artist but you can be whatever you'd like. In this passage you will learn why I picked being a famous artist, what I like to do as an artist, and what materials you need. I picked being an artist because I am passionate about what I do. I love to paint. It's what I do half of my day! I always ask for my birthday and Christmas to get painting supplies. I usually get canvases for my birthday but a lot of other stuff

though. What I like about being an artist is because you can get to paint your imagination on the canvas then share it with others! What I love the most about being an artist is that it is relaxing just to paint on canvases on the easel or the table. Just the look of a finished painting makes me smile. There are a lot of materials you need. There are lots and lots of paints. You definitely need canvases, you need paint brushes, and last but not least you need a table to paint on or an easel. The easel was really an option because I got one for Christmas from my grandma and my grandpa. Now you know why I picked being a famous artist, why I like being a famous artist, and what materials you need. If you want to be an artist you can but you can do something else you love to do.

When I grow up  
 By Ekampreet Kaur  
 I want to become a Doctor when I grow up because they make people strong and healthy. There are many types of Doctors

that do different things to help people be healthy. There are different tools that Doctors use to make patients feel better. Doctors help people and make them feel better. Those are some reasons why I want to become a Doctor when I grow up.

One reason why I want to become a Doctor is because there are many kinds of Doctors and I can choose which one I want to become. Some choices are dentist, eye doctor, bone doctor, and more. All of these doctors do different things to help patients. The dentist does things to your teeth, the eye Doctor checks your eyes, and the bone Doctor fixes broken bones. Those are some of the reasons why I want to become a Doctor when I grow up.

Another reason I want to be a Doctor when I grow up is that there are different tools I can use to fix different symptoms. Some tools are thermometer, x-ray machine, and stethoscope. These tools are used for different things like the stethoscope is used for checking your heartbeat. The x-ray machine is used to see inside your body and to check your bones. That is another reason why I want to be a doctor when I am an adult.

The last and most important reason I want to become a doctor is that they help

patients feel better and they keep them healthy. If you like helping people you can become a doctor because they help people and make them healthy. Keeping people safe and healthy is a good thing to do. Doctors keep so many people healthy and safe in one year and they are one of the people who keep humans safe. That is the last reason why I want to become a doctor when I grow up.

In conclusion, I want to become a doctor when I am an adult because they make people healthy and strong. There are a lot of types of doctors that do different things to make people feel better. Doctors have different tools that help them make patients feel better. Doctors help patients feel better and make them healthy. Those are all the reasons why I want to become a doctor when I am a grown up.

When I grow up  
 By Jordan Case  
 My name is Jordan Case. I think that being a librarian is the best Job ever. There is so much you can do if you're a librarian like read a book, or write a book, and help people find books. There is so much to do.

One reason why I think that a librarian

**WE WANT**

 www.Hillviewvets.com

is the best Job ever is that you can make your own books. One time I had trouble figuring out what type of book I wanted to make fiction, nonfiction. I did not know at all. Int'll I came to something I love, dinosaurs. So I wrote about dinosaurs. I read it to my mom and she said that it was a good story and then I read it to my dad and he liked it too. Another time is when I was going to make a very creepy book. It was about a monster who stole people's souls at 3:00 Am in the morning. When I finished it and read it, it was so scary that it gave me nightmares.

Another reason why I think that being a librarian is the best job is that when you are working you can read a book. Like one time when I was at my friends house I couldn't go to sleep so I read a book and it helped me fall asleep so every time I could not fall asleep i just read a book. But then my friend could not fall asleep so I read a book to me and him until we fell asleep. Sometimes I would get a snack and read one of my favorite books. The Bad Guys was what it was called. I loved it so much.

And the last reason why I think being a librarian is the best job ever. That you can even help people find just the right

book for them. Like one time I was at the library with my friend and he wanted me to find just the right book for him to read to himself. We searched for the right book and it felt like it took a hundred years. But then it was almost time to leave and my friend really really wanted that book so we decided to ask for help and so we did. It took like ten seconds to find the book that was just right for him. And then it was time to leave to go home, but before we went home we checked the books out. And then we started to go home.

That is why being a liberian is the best Job ever.

When I grow up  
By Hayden Beeles

The job I want to grow up to be is a fireman. Some of the reasons why I want to be a fireman is I can save lives. I can protect people from fires and show them what to do If they get caught on fire. And I can tell people when to replace smoke alarms and how to know if it is safe to open a door during a fire.

The first reason I want to be a firefighter is to tell people and kids when to replace smoke alarms and know if it is safe to open a door during a fire. You should

replace your smoke alarms at least once or twice a year, because you'll never know if there is a fire in your house because your smoke alarms won't go off because you didn't replace the batteries. If there is a fire in your house or the place you are in. First of all you need to exit the building you are in and go to your safe spot outside. Once you are outside you should call 911 or see if someone else called 911. If you are inside a house and there is a fire you should take you hand and flip it to where your knuckle is facing the door then you put your knuckle against the door. Then if the door is very hot you should stay inside the room you are in and then if you are in the first story you can open the window and climb out. If your door is not warm then you should grab a towel or a shirt to cover your nose and mouth to make sure you don't breath in smoke.

The next reason I want to be a fire-fighter is I can show people what to do when they get caught on fire. When you get caught on fire you should drop onto your knees and lay on the ground and roll. What they say is drop stop and roll. The saying of that means you should stop drop to your knees and then roll around on grass or something. When you are on fire

you need to stay calm and roll in the dirt because the dirt will end up putting out the fire be cause for fire to burn it needs air so if you put dirt on yourself it will stop the fire.

When I grow up  
By Kyler Small

What I want to be when I grow up one day I want to be a MLB player and that's what want to be when I grow up and I want to play on the dodgers and that's Because my favorite baseball player was on the dodgers and my favorit pitcher is on the dodgers.

I want to be magor league baseball player and that has ben my dream for a long time and that's because I love playing baseball and my too favorite thing's to do in baseball is pitching and hiding and I really want to play in the MLB because I have seen people play in the MLB and ever sens I have wanted to play.

I want to go to college at the arkansas racerback to play baseball then I want to get drafted to the MLB because I have always liked to play baseball and I want to be a relay good MLB baseball player and to me its the funnest sport to do.

Also the reason I want to play on the

dodger because it's my favorite baseball team and it's my favorite baseball team because I played on the dodgers for when I use to play reck baseball and when I watched a dodger game I have liked the dodgers ever sins.

When I grow up

By Mikhaila Bowers

Do you know what Job or Career you want to have when you grow up? Well I do and what I want to do is to be a farmer. There are a couple reasons why I would like to be a farmer. The first reason is that I get to help people and stores with the supply I harvest or grow. Next is cause I get to be with animals cause that is one of my favorite things to do is to be with animals. Lastly, it's something that I will enjoy doing. That is some reason why I want to be a farmer when I grow up.

The first reason why I want to be a farmer is because I get to help others with stuff that I harvest for others to help them survive and be healthy. For example, if I grow Corn, Beans, Fruits, and Vegetables and give them to stores for people to buy and make them healthy and able to have food in their stomachs. Also if I give them Eggs, Milk, and Meat that they can

make other things like with the eggs and milk they can make Cookies, Cake and a bunch of other things. That is one reason why I want to be a farmer.

The second reason why I want to be a farmer is because I get to spend time with animals, which is one of my favorite things to do. For example I get to wake up every morning and go feed Cows, Pigs, Chickens, Ducks, Goats, Sheep, and maybe if I have a dog that helps herd the sheeps or other animals. Also if I ever feel lonely, I can go and sit with some of my animals. That is the second reason why I would like to be a farmer when I am older.

Last but not least the last reason why I want to be a farmer is because that is something that I will enjoy. Because every morning I get to get up, feed the animals, and help people out by giving them food and milk. Also I get to spend my whole day hanging out with the animals and helping people by doing something for my animals. Also my family members can always visit whenever they want cause I won't have a bunch of other people with me that I have to deal with.

Those are the reasons why I want to be a farmer when I grow up. Those are reasons that I get to help others hang out

with animals and that is something I will enjoy. Those are the reasons why I want to be a farmer when I grow up.

When I grow up

By Billy Broadus

When I grow up I want to be in the military. Some reason why I want to be in the military is I have always liked to fight. I also like weapons a lot. Finally, I want to protect my country.

I want to be in the Military like a Marine, The army, the air force or the navy. One reason why is because I like to fight. I have always liked to fight and it would be for a good reason. Instead of fighting for no reason like I do I would be fighting for our country.

Another reason why is because I like BB guns and think they're cool and fun even though they are not toys. they can be used for target shooting to practice and that is what fun about them it is fun to shoot targets. You do have to be careful so you don't get hurt but if they a used right the they can be fun but do not just play with them and get them out whenever. You have to be careful.

The final reason is to protect my country and people that a in need of protecting

and no matter what, protect every one and so we can have freedom. That is why I want to be in the military.

The reasons why I want to be in the military when I grow up because I have always liked to fight, I like weapons and so I can protect my country.

When I grow up

By Abbigail Fields

When I grow up I want to work at the Roller skating rink. The reason I want to work there is because I want to be the Dj. I would love to play some music and let the kids play limbo. I would also like to make sure that everyone is safe.

Another reason why I would love to work there is because I love skating. I would love to teach little kids how to skate as well. I would also like to work there because I can take song requests. I would love to work there because my mom cooks food there and we can go to work together.

Out of all these reasons why I would work there this is the reason why I would work at the skating rink is because I would make sure that all the birthday party's that are there have a great time and I make sure that everyone has a great time.

These are the reasons why I would work at the skating rink.

To be a Dj. Let the kids play limbo. To work with my mom. And to make sure everyone is

having a great time.

I would also like to mop the skate floor and teach little kids how to do the tricks. I like to tell everyone the rules and say the birthday names. I would like to tell people that there can be private birthday sessions for next year. I would also say that everyone is aloud to go out to the middle with shoes on to help their children skate. I would also blow the whistle to let people know their is a family with shoes on trying to leave the skate floor. These are the reasons why I would like to work as a Dj at the skating rink.

When I grow up  
By Maanveer Kaur

When I grow up I want to be a doctor because. I want to help people when they are sick. Another reason why I want to be a doctor is that I will meet different people and I will help people in need when they are super sick. One More reason I want to be a doctor is they take care of people. And they make people better and they

make their day by helping them feel better.

Another reason is that they are so kind and when you're getting a shot they put a smile on your face inside you being sad and crying they mack you com then they put the shot. Next reason is that they make sure you get the right medicines to make you feel better in a few days.

Then another reason is that they always take care of you no matter what and even on the days they should be within their family they help you get better. And on some days they stay overnight to give medicines to make you feel better and on some days they have to stay in hospital on holiday to like christmas thanksgiving and lots more holidays.

This is why I want to be a doctor because I want to help people get better.

When I grow up  
By Harmony Woods

When I grow up I want to be a dog sitter. Why because dog sitting might be fun. Also my mom like to take care of dogs at Happy Hounds and when I'm 16 I am going to work with her over breaks. I will dog sit wehon I am 13 if my mom says it is okay for me to dog sit. I will also try to start a dog sitting club called Magnificent

Hounds. When I do The first person on my list will be my mom and dad because I love them and they love me back. When my baby sister gets older I will see if my mom will let me take her to dog sit with me. When I see a dog and I am with my mom I look at her andd ask"Can I

go see if I can pet that dog?" and if she says yes I fill up with joy and walk over to pet the dog. I will also have a time from 10:00 am to 8:10 pm if my mom says it is okay and if they have kids i will also baby sit their kids. When I am old enough to dog sit and baby sit i will certainly do that. I think I am old enough to baby sit and dog sit but my mom and dad say when I am at least 13. When I am 13 I will bring dog treats and dog toys for the dog or dogs.

When I grow up  
By Ambri Hawkins

When I grow up I want to be a farmer. I want to be a farmer because they get a decent amount of money. Also I love animals so if I get some money I can get a cow,horses,pigs and other animals. I also like to work hard and I like to get all muddy.

When I grow up  
By Addisyn Johnson

My favorite career is to be a medical assistant. My mom was a medical assistant. I want to help people that are in need of help. when I become a doctor I will help my mom with things she needs. so I can help my family if they need help with medical things.

When I help people It makes me feel good and proud. I can help people so I can help others if they are having a heart attack or something like that. When my grandma died I was sad. At that time I wished I was able to help her. I can also help people like my mom. One night my baby sister was 3 months old and she was sick and felt bad and we had to get her medicine. I wanted to be a medical assistant so I could help her get better faster.

When you are a medical assistant and you are certified to give cpr you can help people that are in need of cpr. When you are doing a daycare or going to drop your kid off at daycare. You might need to give cpr if you are certified. When you see that happen it is scary not to help.

What would you do if that had happened? You probably would help if you could. I enjoy helping my mom if my

brother gets a boobo so I can learn. So when I am older you can know how to do that. When you get older or even right now what do you think you would want to do when you grow up. Im love to be like my mom and I love her and she loves me. When I am a medical assistant. I can also help my siblings with medical stuff like medicine.

So those are all of the reasons I want to be a medical assistant. I would love to be like my mom. She is very nice and I just love her too much. I like being a medical assistant. os when you are a medical assistant when you are doing work and there is someone new and they need help you could help them. When you are in the room you love it to be a medical assistant. When my mom came home one day I asked "mom what is it like to be a medical assistant" she said " it can be very scary cause when you are doing a needle you could not pok their vanes". Medical as-sistant is cool.

When I grow up  
By Oakley Wells

I want to be a lawyer because I think i'm. Responsible enough to have be one but I heard my dad. When I told him about

the lawyer job he said it takes a. Long time of school in college i'm smart I can. Probably do that but he said you. Have to be prepared for college because it's far.

Away from your age because you need to. Pass these other grades to you can't just. Rush it and skip grades just to get to college yeah but I'm smart well that doesn't matter because I need to go to my job when I'm older yeah that's what i'm going to do

Your right I said I need to pass these other grades before I get to college lawyers make 101,110 per year and it depends on what type of lawyer you are but when I try out for a lawyer I'm gonna give money to charity, family and people in need

So, when I try to become a lawyer I want to do stuff that will shock the world, I even can't explain because it's gonna be a good idea what I will do because i'll figure it out when I get to my career started then just do the right thing that people want to do for example I am going to is donate to the departments for all of the amazing food they make I already did that in my life so if you want to hear more about my my story about my career then just wait i'm going to write more on my free time ok

When I grow up  
By Phoenix Vanbuskirk

What I want to be when I grow up is, I want to be a doctor so I can have a lot of money and help people in need :) I want to help people feel better. That's why I want to be a doctor so I can help people that need stuff like poor people and stuff like food, clothes, and like a tent. I get a lot of money to so yes I can't wait until i do be a doctor and I want to buy something with it but I don't have any money yet so I want but I wanted it for so long so I can't wait to be one and I want to have a lot of money soon and hopefully I will get a lot and help people who need it and help others and so they have a good day and you should have one to I want to be a doctor for shelter, water, and food.

When I grow up  
By Colton Adams

Today I will tell you all the reasons why I want to be a marine biologist. you can study sea animals also you can play with them and you can be right by the beach.

The first reason is you can study them and their behavior like if they act weird then you can figure out what's wrong and if they are in danger. Also you can see all

kinds of animals like sharks and turtles. Also you can know if they have something unyousual like a missing fin and other things. another thing is you can explorer the water and their habitats.

The second reason is you can play with them like if you want to pet them. Also you can pet all kinds of fish, sharks, and whales it also can be so much fun listening to them. Like what sounds dolphins and wales and so many more animales. Now you can see how much fun playing with animals is.

The last reason is you can be right by the beach and you can swim and surf and play in the water. Also you can play in the sand and you can sunbathe and it can feel so good. It will be a lot of fun also you can enjoy the view and maybe see dolphins. Also you can enjoy the beach with your family and have so much fun. Also you can meet new friends and go on a boat and see more animales.

So now you know why I want to be a marine biologist. to study animals also to play with them and and you can be right by the beach and I hope you enjoyed my paragraph.

My dream job is to be a doctor because i want to help others. im not the only ones in my family who wants to be a doctor because me and my other cousin all want to be a doctor when we grow up we talk about it all the time because we live right next to each other we practice a lot my brother also wants to be a doctor we all want to work together so we can help others

Another reason why i want to be a doctor is because helping others is what im here for and i hope i'm successful

When i grow up i want to give people there Madison and i want to get information from them and type it in the computer and i want to ask how there feeling or how did it happen i want transfer there medasin to the nearest cvs or pharmacy

A lot of people need help in there world causes there sick i want to be a person who can help the people that are in a bad sickness

When I grow up  
By Noah Clements

When I grow up I want to go to the NBA. My first reason is I could have a lot

of money from my contract. My second reason is I could meet a lot of NBA stars before they retire. My third reason is I could have a lot of new friends around the country. My fourth reason is I could have a lot of things I never got when I was a kid.

But there could be a downside to playing in the NBA. One downside is I could break a bone. Another reason is I could tear a muscle. Or I could sprang my ankle. Another reason is that I have to practice hard so I can play well. Another reason I have to practice hard is so if my team is bad I can carry them to a championship. Another reason is could have a bad season and have a lot of chances and mess them up. Another reason is I could foul out most of the season. Another reason is I could get over weight and injures could ruin my season. Another reason is I might be a bench player and not play a single minute in the NBA. another reason is I could retire early and my team might be bad.

And I could have one of the best teams in the NBA. But that could be bad because I might not play a single minute in the NBA. Another reason is I might not get paid enough. I could get suspended for a couple games so then I wouldn't be able

to play for those couple games. Another reason is I could get ejected which means I can't play for the rest of the game.

But I can't have a bad team or I might not win a championship. So I that's why I have to practice hard. And also put in the work to be great. But I will face challenges and down points in my life. But that's okay I just pick myself back up and face the challenges.

When I grow up  
By Samantha Crozer

I want to be a singer when I grow up, also I love music so much that it makes me feel so happy. Me and my family tells me that you are the best at singing and you are too you just do not know it. You are all such good singers! And how I know is because you have a awesome singing voice. And never doubt yourself because I know that you can do it know matter what. Let's say you are in a singing contest and you are scared well here is how you can stop being scared, All you've got to do is take as many deep breaths as you can until you are calm and you will be amazing because you are not nervous. And I just know that you will rock it. And I just want to let you know that you are the best at

singing and if you practice a lot it will help you a lot. And ask your mom and dad if you can get in singing lessons. And they should say, "Ok" And if they don't that is ok too. You can just practice at home and go to Youtube and search up singing lessons and you can watch it from there to though. so that is why i want to be a singer.

When I grow up  
By Nikhil Grover

What I want to be when I grow up is an NBA player. I loved basketball my whole life. It was my favorite sport. I played it so much. I loved it. As I got older My dad put me into basketball camp. Then I was starting to make more shots in the basket . When I got older I had a better percentage of making shots. So I got better and better each day. When I got home from school I always used to play basketball in my backyard.

We played a lot, we even played 2k20. He will always win, but I started to understand some stuff so I got really happy because I learned something new. So I practice my shotts and I will always play basketball with my friend. Outside in my backyard. I will always win when I play basketball. My dad was very good, So I

will shoot deep shots so I can make more points when we play so I can win the game in the backyard. I will sometimes ask my dad to move the hoop near the trampoline so I can dunk and that was cool and I liked it. It was really fun.

No matter what, I will stick with basketball my whole life, because it is my favorite sport no matter what I play other sports just for fun but basketball is my main sport. Basketball is my career and I will stick with that sport my whole life no matter what I do until I make it to the NBA. And when I'm in the NBA I will accomplish my dreams of making it to the NBA. Basketball is my life, it is my sport, it is my game, it is my favorite and I love it so much that I can't stop playing basketball.

When I grow up  
By Devin Jones

What I want to be when I grow up is a NFL star that is my dream one day. The reason I want to be a NFL star it's because it has always been my dream. I've watched football since I was 2 years old. I play quarterback and I want to be the star quarterback. I want to be the number 32 pick in the 2035 Nfl draft.

I want to go to the University of Purdue

and that is going to be my college and that is where my pro day will be. I want to be drafted By the Kansas City Chiefs or the Indianapolis Colts . I was born in a football family. My dad played college football for the Texas state cowboys. but now they are called the Texas state bobcats. My dads uncle David was a professional football player for the Dallas cowboys. I will tell you about my football career in my league this year. I had 252 yards in Total yards 2 rushing td and 7 passing td. That is all of my stats.

When my first million dollars are spent with my family and my teachers but when it is all to my important people I will start a charity called Devin's food drive. When I first got drafted In my rookie year I wanted to have 5,346 passing yards 40 passing td 13 rushing td and 1,000 rushing yards. But being an NFL player is hard. You have to go to the facility everyday. You have to work out and also go to practices and then when it is gameday you have to not be late at the stadium and start warming up before the game. But sometimes it's easy because sometimes when you are done then you get to hang out with your teammates.

But getting in the league is hard you

have to be the best college football player ever. you have to win the Heisman trophy winner and try to be the national championship MVP. A lot of college football players usually go to the league in their junior year. This dream has been going by everyday but sometimes I think i'm probably im not going to make it in the nfl because there is probably going to be a lot of quarterbacks that are going to better then me and I think i'm going to be and undrafted free agent and not even make the league but my mom always says to not give up on your dreams.

When I grow up  
By Malachi Jones

What I want to be when I grow up is a marine biologist. I want to be a marine biologist because It's an important job and I get to learn about new species of sea creatures and one day I might get to name one. It would be a lot of work but I think it would be worth it. What inspired me to want to be a marine biologist is that I like to swim. Another reason is that I want to go scuba diving and I'm very interested in species of sea creatures. Also I could make very good friends along the way. Me and my friends would be able to

explore and understand so many different species and places. One day I could even explore and set a world record of most species discovered by one person. I also think that it would be so fun I might see an endangered species and save the whole species from being extinct. It would also be fun to witness something on camera with my friends that is so old that it was when dinosaurs existed. Another reason is that I would be able to scuba and being able to scuba diving is something I've wanted to do my whole life. Another reason is that my friends and family would cheer me on and that would give me a lot more confidence. Having more confidence would help me study a lot harder.

little teacher it's been one of my favorite things to do ever since I was little. Another thing that I do when I was younger is I would always pretend that my stuff the animals were little students and I'd have a little pointer finger and I point the things my wall and act like they were actual things that kids needed to learn in school.

My last reason why I want to become a teacher is because I've always loved kids and it's always been one of my favorite things to do to pretend I like to be successful in life and as long as my grades go up a little bit more and I have the right attitude I believe that I can become a teacher and I hope I do because there's some kids out there that need help and I'm not just going to be a regular teacher I want to be a special needs teacher because the kids out there deserve to be treated correctly like other students not just because of how they look or how they feel or how they say things or different things like that silly they all deserve to be treated correctly in the same way!

When I grow up  
By Maya Mushantaf

When I grow up I want to be doctor. like I want to give surgery Bc I love helping

people. And I love lening about stuf like that docter stuff. and I know sum people say eww that is grows well I know but I what to do it. and you can get a lot of money but I dont care about the money I just care about me helping the people .and if I get lot of money I will give my family ofc .bc they help be and I will help them and my brother said he mabe be a doctor to and then if he works at the same plase as me I get to see him well I hope. And I get to meet people and for me that wold be nice . And I can even talk to dockers. And I can learn about the stuff. And being a doctor is relly hard and you have to sudy a lot. And you have to be relly smart and get good on your test. well I hope being a doctor is relly fun .and I hope it will be fun for you to well if you `be a doctor. And that why I think being doctor is fun and good.

When I grow up  
By Rylan Clements

When I grow up I want to be a teacher because my mom teaches me a lot because she's a middle school teacher so that's what I want to be when I grow up. I want to be a writing teacher and I want to be a 7th grade teacher because that's

what my mom teaches.

When I grow up  
By Amber Cress

What I want to be when I grow up is to be a police officer. Why I want to be a police officer is because I want to help people and help save animals too. I love helping people a lot with stuff and helping get things down or animals in trees or other things. When people are police officers, they always help people and save the day. I loved when police officers passed by and waved to me, so I liked to wave back. Some people like to wave to police officers like me. Waving to Police officers makes police officers proud. Also Police officers might wave at you and you probably don't know that a police officer waved at you.

Police officers always catch bad guys when they steal from other people's homes or from the bank. Police Officers have to work day and night. Being a police officer is a very hard job to do. Police officers don't really get a lot of sleep because they work day and night. Police officers help to work together to be on time, and to get dressed. My dad's dad was in the navy for over 5 years. I also think he was

a police officer at first.

Tests are super important for police officers. Police officers have to take tests to see if they are ready to be a police officer or not. When they take tests they have to answer all the questions right, if they answer most of the questions wrong then you can't be a police officer. I love doing tests and answering questions because I love answering questions and asking questions too.

This is why I want to be a police officer when I grow up. Being a police officer is a really hard job to do for some Police officers. If you ask "why" I will tell you why. Why police officers have trouble doing their job is because they have to get ready on time, eat, and be there on time. Another reason why their job is hard is, when they get a call about a serious emergency they have to get there on time. There are a lot more reasons why their job is hard but i am not gonna tell all because there are a lot of reasons.

you have fun when your that kind of you-tuber. Games I will play are fortnite, roblox and even more games. If I get bored I will invite my friends over to play with me. If i'm really excited I will record a video and show my fans. I will not say curse words because you get hate. If I get money I will give it to homeless people.

When I grow up  
By Alexis Olmos

I have always wanted to become a professional photographer. These are a few reasons of why I want this job. I have always loved taking pictures, I would love to be famous for my beautiful pictures I take. I have had this dream for years now and have worked way too hard to stop aiming for my dream job. I have the will to do whatever it takes to reach my end goal.

To start, I have always had a passion for taking pictures of beautiful things and myself. I have learned how a camera works, I have also met a famous TikTok photog-rapher who has gained a lot of fame off of her wonderly taken photos. Her work has inspired me to keep my dream going, also as to not give up on everything I have worked for. Giving up would mean missing out on a wonderful opportunity to get a

good job.

My dream is to be like her and her work.

Second, I have always wanted to be famous for something. When I found out that taking pictures could be a way to become famous, that inspired me more to keep going. I have been saving up to get a new camera. Last time I remembered, they were \$55 for the exact one I wanted. I think this is a cheap price to achieve my dreams.

Last, I have had this dream for a long time. The exact time I have been wanting this job for is 2 years. I have been asking my mom for this camera. But, she said it was too expensive and that she would have to look into it.

It would be amazing to become famous for my pictures.

In conclusion, these are all my reasons for wanting to become a photographer. I have always loved taking pictures for such a long time, I want to become famous for my work like many have before me, As well as it has been my dream for a long time. I hope one day my dream to become a photographer comes true.

With my knowledge of picture taking and current skill with it, I will go far in the near future. My chances to achieve my goal are

high, and this is why I'd like to become a photographer.

When I grow up  
By Aiden Pugh

When I grow up I want to be a mechanic because its fun to program stuff so when I am older I can work on cars helping people if they break down on the highway and maybe making my own company when I grow up I want to make the world a better place so people have a bad day if there car breaks down or if there tire is flat. When I am older I will make cars and fix cars just like Elon Musk! When he made cars like the tesla that was a really famous car because it had auto pillot. Who knows I could be the next billionaire in the world!

Whenli become an entrepreneur I am thinking of making a shop in the middle of town so every boody can come vist me when I have an oil store and car place if I am rich enough I will try to make a dealership right next to my oil exchange store when I am grown up I am not going to be a bragger but I might have 15 employes at the dealership and 5 at the oil exchange store.

When I grow up  
By Maranda Sheets

What I want to do when I grow up is a doctor. First, I love meeting new people and to keep people healthy. When people come to the hospital, I am not shy to say hi to them. I am very nice and every one that are my friends or family know I am.

Next, I love seeing people back to normal and not in bad shape. A lot of my family members get really out of shape so I come in and help them with the problem. Also, I go with my mom to drop of food for her because she is a nurse and I watch doctors getting people better. Then, I love helping people to get through cancer because it can kill you and it is very dangerous. It's really fun to experience the different diseases that you can catch. The things what doctors use to people, I think they are very cool but I will still need to learn about them still.

Then, why I want to be a doctor is because, I will be able to make doctor friends and help them if they are new to the job. For example, my mom had someone new to the job at her work and mom welcomed the women and she loved that.

Finally, why I want to be a doctor is to

get people better with really bad sicknesses that they have. If you get the flu, that mostly means that you have been touching things sicknesses on it. If you get covid that probably means the air is filled with disease. The flu and covid, people get those two a lot. Covid can be very dangerous and the flu, well it depends what kind it is.

That is why I want to be a doctor when I grow up. It is cool how doctor can get people better with really bad sicknesses that they have. It's also cool seeing people back to normal and not in bad shape. If you want to be a doctor then you can see doctors do what they are doing. That is what I do! That is why I want to be a doc.

When I grow up  
By Karli Smith

When I grow up I want to be a basketball player because I think I could be one of the best ones in the whole entire world like Michael Jordan. He was talented and all but I think I could be better. I could maybe dunk higher than him or I could be a better player than him. My passion is basketball. I can see myself in the NBA even though I'm a girl doesn't mean anything I could be a girl basketball player.

The reason why I want to be in the NBA is because people need to see what a girl can do because some people don't believe in girls. Guys think they are better than girls so I want to show them how girls work hard and play hard cause girls do the same as boys. If you were a girl would you like being picked on by a boy? Cause I wouldn't and I bet you wouldn't like it either so if you want to be in the NBA don't give up on your dreams.

Another reason why I want to be in the NBA is because I want to show off my skills and have fun. Can you put the ball between your legs and bounce it between your legs? Cause I can and I can already dunk. I have my dad train me outside of my house every day or at least on the weekdays. I'm practically almost where he's at like his skills.

My last reason why I want to be in the NBA is because my family can be proud and will know how hard I worked to get to this point. Also I want to see the NBA player's when I get there and see who's on my team and be friends with them. Also to tell them what kind of skills I know and tell them that I will meet Michael Jordan one day. Sometimes I will watch Michael Jordan and see some of his

trick's he does and I teach myself how to do them. I will also learn other player's trick's like Kobe Bryant. I like his trick's but not more than Jordans.

If you want to be in the NBA don't let anybody ruin your dreams you keep going. You want to push yourself harder and don't give up. Don't forget to stay positive and never say never cause there's always a I will. You will become your dreams and be kind cause being kind is the whole point. Always try your best and don't give up.

When I grow up  
By Serenity Spainhower  
My dream job is to be a Nail Technician because I love art and drawing. So I can challenge myself with hard challenges. Like if I have to deal with a rude customer or a person that won't stop moving or texting or eating I'm sorry if this makes you mad but this is how I feel.

Another reason why I want to be a nail Technician is because you get to make your own style and have the freedom to be creative. Also you can buy a lot of nail polish colors to display on the walls and make it pretty. Plus I get to display things the way I want it and hang up lights and

pretty decorations. Also you can paint peoples toes and do designs on their toes.

The reason why I would be a good nail technician is because I am so creative. Also I love doing art. Art is my favorite subject in school because I love being creative. Also I have steady hands to paint nail polish on peoples hands and nails.

When you become a nail technician, you need to go to a training school program for 450 hours that is 19 days. The whole reason I wanted to be a nail technician was because when it was my birthday and I was turning nine years old I got my nails done and got square shaped and got pink and blue. I also added butterfly stickers on them.

The whole process for doing nails is 2-4 hours depending on what you get.

These are the sizes of acrylic nails. The sizes are are short, medium long and really long. Now what you do first is your customer picks its colors and then you sit them down.

Next, you put them under a light that dries your nails. Then, you would put the stickers on if they want any or if they want a design.

Finally, you get up and pay. As you can see there's so many reasons I want to be

Want a house but don't have the money?

When I grow up  
By Autumn Sprague

What I want to be when I grow up is a singer. I want to spread music to the world. Music can help you feel better when you're sad, so I. Want people to feel better and happy . People just like to sing along to a catchy song and I want that to be my song . A singer is what I want to be and I'm not changing that.

A singer is an artist spreading art to the world where everyone can listen . I want people to be able to listen to my music and like it because music is my passion and what I am meant to do . I know that for a fact I was given a beautiful voice and I'm going to use it. I will spread my music so everyone can hear it.

Singers music can make you feel better when you're sad and it helps you get back on your feet. I want people to feel . better when they listen to my music. Music is proven to help people and I. love people so that just makes me want to be a singer more. Singing in moves is something that some characters listen to when they're sad.

When you're in the car and you hear a catchy song come on you want to sing to it or bob your head to it . when I grow up I want people to listen to my music and When im older I will here my own catchy song . and when I do I know that dream has come true and I have successfully

So in concussion I want to be a singer because singers spread music to the world where everyone can hear it .And it makes you feel better when you're sad and it can be a catchy song you love .That's why I want to be a singer when I grow up.

When I grow up  
By Brock Maple

I think that the best job for me is a nurse. You have to pass out some pills to the sick people. It is pretty easy but some of the patients can be hard to deal with and can be cranky and mad. So you have to do it right in the morning so they're not that cranky and they're just waking up .

And you will have a lunch break but it is only 25 minutes so you have to be fast with your eating and it can also be hard for you when the other nurses have to eat to .

So you have to take there spot for a

minutes 25 minutes forever it will fell like along time . you will be doing so much and you will have to do all of their stuff.

When I grow up  
By Azariah Woolbright

When I grow up I am going to be a football player I You want to be a wide receiver for the NFL and I can be on any spot I will be happy If I can get into the nfl And why and Talk to my friends and hang out and I love football and I do not care about the money I'm just like to have fun. and last year I played on the Coach football field and I got two touchdowns and when I grow up I'm going to be on the Colts football field and get enough another touchdown And I want to be drafted by the Kansas City or the Colts because I can make them better I will.

And When I get drafted I want to be with all the famous and be on the field and play and play with all the and mess around with them And give away a sign for football and my helmet and some cleats And I want to win a football game in Kansas City or the Colts stadium. how drafted by getting into high school and they will be looking at me from the stands and maybe I can get in But that's a rare chance but I

will try

And if I can't get drafted to the NFL women high school I will try to get drafted or I will get drafted into college by produce and I'm going to play there like two I can't get into.

When I grow up  
By Emerson Truax

I want to be an FBI agent because I can go on cool crime investigations and be on TV and help the world be better by stopping crimes. I will also make the world a better place by giving people entertainment. And their a lot of other things I can do I could save people from dying.

Being an fbi agent is my dream job. Because I can bust open doors with battering rams and go FBI open up. And go on investigations and put people in handcuffs. And I'm friends with the government the firemen the ambulance.

The second reason being an FBI is my dream job. Is that I could help the world be a better place by putting bad people in jail and getting payed to help the world. Were it has been tore up by Hurricanes, Tornadoes, Earthquakes, Avalanches.

If I become an FBI agent I have to go through like 5 years of college. First be a

police officer then I might be a FBI agent. I would also risk my life to do cases where people murder, stab, shoot, punch, plant bombs. My mom would be really really scared probably if I did a case on murder and he is still out there.

Those are all the reasons I want to be a FBI agent I told you about how being an FBI agent is my dream job. How I would be friends with the police the firemen the government the ambulance. I told you about how my mom would be scared probably. I told you that I would probably have to go to college for five years. I told you that I would enjoy busting down doors with battering rams and going FBI open up and putting people in handcuffs and going on investigations.

My favorite game  
By Jackson Means

My favorite game ever is Madden NFL 23. My opinion is that it is the best game ever made. You can control your own team and lead or rebuild them. You can create your dream team with Ultimate Team cards. You can play with online people with every team in the NFL. You can build your own dream NFL player and edit them. These are some reasons why Madden 23 is the

best game ever.

The franchise mode is where you can build your own team and lead them to the playoffs. It's like you are the coach of a NFL team. When I always play franchise mode I like doing fantasy drafts. Fantasy Draft is a mode in franchise where you get rid of all of a team's players from the original team and draft based on your pick of any player that's on the draft board. There are 53 rounds in a fantasy draft. You can play with people online by inviting them to your franchise. When you play a franchise it gives off a feeling of determination by wanting your team to make it to the superbowl. You can play against a CPU if you don't have anyone to play with in Franchise. Franchise is the best game mode in my opinion.

The next reason why Madden 23 is the best is because you can make your own dream team. If you do challenges in ultimate team you earn XP, coins, players, and during the season some secret easter eggs they put during the challenges. There's an auction house where players are selling cards for an amount of coins. The card can range from 70-99 overall. You can build the team of your dreams with coins. The coins can be obtained by

challenges, in some cases buying them online, online H2H, selling your cards on the auction house, and finally daily coin packs and strategy cards. Ultimate team is one of the best modes in Madden 23.

The last reason Madden 23 is the best is because you can control an NFL player.

When you do this game mode called Face of The Franchise you can build your own NFL player. You can name your own custom player, and play every single game dedicated to leveling up your player with points. You can lead your team on your back and play like a real NFL player. You are controlling your own NFL team.

Madden 23 is a really good game. You can coach a team. You can make your own custom player. You can have a dream team. This is my favorite game, Madden 23.

My favorite game  
By Matthew Witte

My favorite game is Lego Super Villains. It gets to let me pick my own character let me take my own head and I will be fine pants and my own legs follow me pick my own car and my own plane

My favorite game  
By Noah Stutzman

My favorite game is Super Smash Bros. One thing I like is that there are so many different fighters you can play as. Another thing I like about the game is that it is fun even when the CPU gets stronger it is still fun. One more thing I like about this game is because there are so many game modes. The last thing I like is because in general it is still a fun game.

My favorite game is Super Smash Bros. I like this game because there are so many game modes. The main game modes are world of light and classic mode. Some weird game modes are spirit board. In classic mode you battle another fighter(s). It is the same battles every time you win the battle the hardness goes up. The higher the hardness the harder the fighter and if you don't get hit it will go up by 0.6. If you do not win a battle you can revive yourself but the hardness goes down. The highest hardness is 9.9 and the lowest hardness is 0.0. In spirit board you have to battle fighter to save the spirit by killing the fighter.

The fighters are Mario, Donkey Kong, Link and more. My favorite fighter or main (what the favorite fighter in the

super smash bro) is Marth. My second favorite fighter is little mac from the punch out games. My not favorite is Ryu and Ken. These are echo fighters. Echo fighters are fighters that have the same moveset and have different costume and name. It is common for people to think in cassic mode and they will fight Ryu and Ken thinking "why are they together." The reason that they are together is because they are echo fighter. I found a new pair of echo fighters, it's marth and luna. So far the highest we have gotten is 7.3.

#### My favorite game

By Yovanni Tzin

My favorite game is madden 2023 it is a football game .why i like it .why it is my favorite game. How fun it is .

Why I like Madden is because you could pick your favorite football team to play as . And you you could pick how tall he could be and you could customize your person .And you could name him. Or you could pick your favorite person on the team to play as then you could play on your family members .

Madden is my favorite game because there are so much things you could do .And you could do two player so like you

could go against your friends or your dad ,mom uncle . there are so many teams you could pick from like the Minnesota Vikings or the Bengals and much more that you could think of .

The game is really good to play that I can't stop playing .Like I will be on till it is two am. I give it a ten out of a ten.

#### My favorite game

By Brooklyn Lines

My favorite video game is Mario Kart Deluxe 8 because you get to play with and it goes up to 4 friends that can play on one TV. You have so many charters that you can choose from and cars and kits to help you over mountains that have spaces between the two mountains. But this is just a little bit about Mario Kart Deluxe 8.

How you play this game is what you see on the page on the game it will ask how much people are playing. Like I said early you can go up to 4 friends to play with you and you can play by yourself too. On the second page how much speed you want and on the three page you choose your character. But like Wendy the most she is the best character in my opinion. On the four page you will see your car, wheels,and your kit and this is the last

page before you start you race you choose which world you want. Also there are 12 people playing in the whole game for your race that you are doing and for when you play balloon tag there are also 12 players on balloon tag.

Let me tell you about 1 main race there is balloon tag it is where you pop peoples or players balloons to get 1st place. Ballon tag is where you want to pop peoples balloon because you only have five balloons. Also you would be on a colored team I always get red team. How you pop the balloons you go through the mystery square then you try to pop other players balloons. You do this whole balloon tag for 2 min and a couple seconds. You will get a trophy for what place you are in.

Now I will tell you about the race you first, start by looking where you are going to race and if you are in the back the line I think you go faster in my opinion. Next you will start your race and on your way you will go through the mystery squares to help you get in first place. Their might be something that you need to jump off so you can use your kit that is why you get a kit. You do that one race three times doing the race course. Then you will do three more races and then you will get a trophy.

You should enjoy playing this video game with your friends or family!

#### My favorite game

By Jacob Young

My favorite game is fortnite. It is my favorite game because all of my friends and family can play it. Whenever you are stressed all you have to do is get on a game of fortnite and try to win. if you don't want to spend money on the game it gives you a chance to get free skins, first it gives you free skins every year for christmas. Also if you are really good you can join a tournament and if you win you get a free skin.

If you want you can add money to your account to your account and buy a lot of things so when you get older you can sell it. It is super fun to play when your young because you don't want to get off. But be careful if you get it because you can change your settings on accident and never know.even if you don't spend money you can still be super good.but sometimes if you put on a skin it gets you better.

If you ever started fortnite in 2018 and you got skin and you just deleted the app then you messed up, because you could of sold it and got so much money. Fortnite

can sometimes be angry. If you play certain games and you die then you found a way to make yourself mad. Fortnite has multiple games to play, like among us and a lot more. Or if you don't like to play mini games you can do a battle royal game and try to win. But if you are new then you should try the 99 bots around the map, so you can get used to the map and get good.

My favorite game  
By Blake Nelson

I enjoy playing video games with my friends, because you can play against each other or play as a team. One thing is you can play more the 1000s of games my most played game is rocket league. You can play halo, fortnite, minecraft, rocket league and so many more than that, those are my top ones I like to play, playing with your friends get yo guys to be closer and play with each other whenever you want.

I know when you lose you get mad but you can just play over and over again. If you like playing video games with your friends that's awesome but you can't blame, your friends for something you did wrong.

Playing video games with your friends cool in all but some games get boring that's why there's over 1000s games. I know it feels like too many but you can just play a different game when one of your friends thinks it's boring. There's so many platforms you can play on like, switch, xbox, phone, ps4/ps5, so many you can buy and play with your friends.

If you can't buy one you could buy and controller and hook it up to you friends xbox or ps4/ps5, and play a multiplayer game. If your friend has two controllers use that controller instead of buying one. You can get a platform by saving up, doing chores or, mowing lawn. each controller and platform come together.

Why I love playing video games with my friends is because you can so many games have fun and relax. You also spend a lot of time with your friends. That's why playing video games with your friends is fun and relaxing. playing video games with friends is entertaining it makes your friends want to come over more.

My favorite game  
By Eli Flodder

Fortnite is the best game because it has a lot of updates. and new weapons and they also have a battle pass that you buy with v bucks. and buy skins to play with people and. Have fun playing and you can glt a win and get level 100 to. glt a lot of cool. Stuff and gliders or backwards and pickaxes to Is it brick Like stuff wood and Ice. and metro and stone it is a fun game.

And you can have a lot of fun like enjoy and have a good day and stuff like metal wood brick it as an good thang for me. but I'm sure it will. not be there until after the game is over by then it will take me about an. hour for it to be back in the in the game and it will be a good time for the game and people will think about playing it again to have fun again and then we will have a it a good time.

My favorite toy  
By Wrigley Wood

I love legos .I love them because they come in so many different colors and shapes. Another reason is you can build so many different things with them. Legos are fun to play with when you are bored.

Legos are the best because they come in so many colors and shapes. If you are building a house with them you need a door and they make them. A nother reason is they are in squares which make it easy to build and play with. They make sets where different parts come with it to make it and you can use them to make other things like the roof of the house. They even have people legos. Legos are the best.

You can build so many different things with legos. You can make a house, playground, and may be a classroom. When you build things you can use unwanted materials to make another build. You can make animals to you can have the human legos have a pet dog or cat. You can even make ships or islands. I think it is best to get a lot of the same pieces so you don't have a rainbow house. If it is your first time try to make something simple like a small house or even a set with instructions to use.

Legos are fun to play with when you are bored. If you have nothing to do and you are bored I think legos would be a nice grab. You can do it whenever you want after homework or after chores you are never too busy for legos. if you used all of your lego pieces to build a house you can take it apart or you can play with the sets you made. Legos can build small things to even put on a keychain or you can even keep in a bag or purse.

Legos are the best. There is so many shapes and colors to use. You can build so many things with them. You can build with them when you are bored. Legos are the best toy to play with.

My favorite game  
By Mia Floyd

My favorite game is roblox it is so much fun because it has so many mini games on roblox.

My favorite game in roblox is adopt me it is where you can take care of your pets and collect them all. It is so much fun to play there is so many things to do it adopt

me when you take care of your pets you can get money to buy pets there is so many places to take care of your pet.

Adopt me has a accessory shop and you can buy accessories there and put them on your pets it will look so cute on them sometimes there are new updates they are really cool so that means that there is new accessories a lot of times and it is so much fun to see what accessories there are.

My favorite game  
By Isaiah Gross

My favorite video game is gorilla tag! I love gorilla tag because of the fun community, how the game is easy to play, and the funny moments

The community is the best! Besides the 4 through 9 year olds screaming all the time. The community is welcoming to new monkeys and funny! Monkeys are nice, But sometimes weird. And that is because of the diverse community! There are cool monkeys, mean monkeys, rich monkeys, baby monkeys, and the screamer monkeys. Cool monkeys are well, cool! The mean monkeys are ragers. Rich monkeys are monkeys that have 20 cosmetics on. Baby monkeys are new monkeys, And

screamer monkeys are annoying.

Ok so let me tell you about the game! The game is basically where you run away from lava monkeys who are it. There are 4 game modes, casual, infection, hunt, and paintbrawl. Casual is where you relax and talk to friends. Infection is where on monkey is it and has to tag all the other monkeys and when he tags someone they are also it now. Hunt is where you get a watch and have to tag other monkeys so they lose, there are 2 winners. Paintbrawl is where there are two teams, Team orange and team blue fight and one team wins. There are also 6 maps, forest, city, sky, caves, canyons, and mountains. Gorilla tag is the best rated game on the oculus quest store!

The funny moments are super funny. There are funny scares, tags, and youtubers. The funniest youtuber is "jmancurly." I watch him all the time, He taught me how to play and all my friends! I play gorilla tag daily! I have juked my friends a bunch of times! I have taught people how to play, helped them "Cowboy run," a run that i made up. I have played with music and juking kids. A juke is when you go right but then swipe and run left. I always boop people on the nose when I tag them.

200th

Those are my reasons on why gorilla tag is the best game ever. Because the community, how the game is easy to play, and the funny moments.

My favorite game

By Rylynn Koger

My favorite video game is Among Us. I really like this game because... Whenever you play it and you get chosen as an impostor, it really gives you that cruel and suspenseful feeling inside. When you get chosen as a crewmate, it gives that sus and scared feeling inside when you don't know who the impostor is. On Among Us, you can create and design your avatar. You can change the color of it, you can give it hat's, give it face designs and much more! On the game, there is a Chat Room where you can talk to other people. But be careful, you don't want to give people personal information and you don't want to talk to people who are being mean or who are being strange on there. You can also add friends on there so you can play with them! (It's nice when you get to play with your friends.) You can also change your name on there. You can change your name to Queen bee or DoodleBob! You can do WHATEVER you want on there. You can also play different maps on there too! The maps they have are Skeld, Mira HQ, Polus and Airship. You can also create your own games on there too. You can be the host and control everything. Overall, I think that Among Us is a really good game to play! It has a lot of things to do on there too! I think that it is a great game and that you should play it too! Among Us is the BEST!

My favorite games

By Karissa Ramsey

My favorite games are Gacha Club and Gacha Life. They are almost the same thing except Gacha Club has more items and outlines and on the other hand Gacha life has no outlines and not many items or colors and they are also both free you can get in on your tablet, phone, computer, but not a TV, and i'm sure not if you can on a Nintendo Switch. And you can have roleplays, you watch adds to get gems, you can battle and play other games. You can also go to the already made characters and fix them or roleplay with them also same with Gacha Life thought I don't really recommend Gacha Life because of some things that might not really be used or anything but Gacha club on the other hand Gacha Club is funner and has better ocs than Gacha Life because of some reason that I guess the creator decided to do so yeah. But gacha life can be fun you can make good ocs either way so install both if you want. And you can take screenshots and make a video to post on Tiktok, Youtube, Youtube kids, Likee, Picnic, and

whatever else you can post videos on.

There is other Gacha games like Gacha Nox, Gacha Glitch, Gacha Cute, Gacha Outfit Ideas, and Gacha Coloring books and Wall Papers but all the way to Gacha Nox-Gacha Cute you have to kinda like pay for them to play but they have more realistic items and hand and faces. And almost all of the Gacha games are similar but Gacha Wallpaper, Gacha Coloring Books, and Gacha outfit ideas are different from most of the Gacha games.

And that's why you should install Gacha club and Life. And maybe the some Gacha Outfit Ideas if you don't really know what outfit to make. And maybe some Gacha Coloring Books if you like coloring and Gacha Life and Club. And maybe ask your friends to also install it. But mostly just have fun playing.

My favorite game

By Maddox Vitols

My favorite game is called slime rancher. The reason why I think it's fun is because, it is a collector game and exploring. Here are some facts about it the game was released on January 14, 2016 for early access. But it was officially released on August 4, 2017. You can play it on Windows Mac, Linux, Xbox One, Playstation 4, and Nintendo Switch. The rarest slime is the gold slime, it has a 0.01% chance of spawning. The lucky slimes are extremely rare because they shoot out newbucks. Lava Dust is a rare slime science resource. There is a slime called hunter slime and it is relatively rare because it can turn invisible. There are drones that are highly useful gadget. Some people say that the puddle slime it the cutest slime. When you want to earn newbucks you have to get plort from the slimes, the way to get plort is from feeding them. Some need vegetables or fruit.

My favorite toy

By Andrew Altenhoff

I chose legos is because they are fun to play with. You can build many things with legos. Another reason that I like playing with legos is because you can get different sets or different things to build at the store and you can build it with instructions. That's why I like legos.

The first reason is that you can build many things out of legos. Because once I was just building with my legos and I built a tiny dragon. You can build tiny little people. There are many different colors. You can get boxes to build certain things. That's why I like to play with legos.

You can get legos in different ways. Legos can come in many ways. They can come in packs, bags or taots. You can build one that you want to build or you could build whatever you want. Legos are

so fun to play with

Legos are really fun. They are fun because you can build many things out of them. You can build lego people. You can build animals. And you Can build a bunch of other things out of legos. That's why I think legos are fun.

That's why I think Legos are the best. They are really fun to play with. They are really entertaining. You can build many things out of legos. That's why legos are the best toy.

That's why I think legos are the best. You can do many many things with legos. Legos are really fun. The point of legos is to build. And you can build many things out of legos. That's why legos are the best.

My favorite game

By Nick Stutzman

My favorite game is Super Smash Bros .sires because it has many game modes , it has a lot of characters, and it lets you learn about my secret game, Super Smash Bros .ultimate.

One reason why I loved it is that it has a lot of character. You have marth r.o.b and ect. So if you don't like someone you can choose a fitting character for you. There are a lot of dlc characters. If you don't like single then go into setting and turn on ecoh fighter

Another reason why this is my favorite is because there are a lot of game modes, like World of Light and mode. If you want to have an adventure then go to the World of Light to collect spirits ,or go into spirits. If you don't like getting spirits then go into classic mode to fight a horde of fighters and sometimes you will get a teammate and you will face a boss at the end.

The last reason why this is my favorite game is because of the skin of the game like red caped-marth red-R.O.B white wedding-mario.every person has a dedicated skin for every character. As you can see, skin is unique.

As you can see the character helps an opinion. The game mode can help you keep loving the game. Lastly, the skin helps to be unique. As you can see, the super smash bro series is an amazing game.

My favorite game

By Samuel Bright

My favorite game is Sorry. It is my favorite game because the rules are simple, you can knock people out, and there is a cool feature called fire and ice. This is why Sorry is my favorite game.

The rules of Sorry are very simple . You can get knocked out and back home. The point is to get around the board and get all of the little game pieces to your safety zone where no one can get you. There are also slide spaces where if you were to land on it and your color was on it, you

could slide a couple spaces. This is why Sorry's rules are simple.

You can knock people out in Sorry. First, you need to pull a card that is the exact amount to land on someone. Then you need to take their game piece and put them in their home. Finally you can take their space. Knocking people out in sorry is fun.

There is fire and ice in sorry. Ice is when you get the right card and it says ice, you can take it. Then no one can get you. Fire is the same thing with the ice card, it says fire on it, you take it. And you can drag other people into your safety zone. Fire and ice is very cool and hot.

In conclusion, the game sorry is the best. Sorrys rules are simple. You can knock people out, and there is fire and ice. You should enjoy some family time today and play a game of Sorry.

My favorite game

By Tallie Small

My favorite game is Yahtzee and a few reasons why is because its so shocking to find out what your gonna get, seeing the strategies, and it's pretty simple.

In Yahtzee you have 5 dice and have to roll them to get a Yahtzee, small straight, large straight, and more. It's so exciting to see if you'll get a small straight right off the bat or if you get unlucky and have to reroll completely the first time. Like one time I was rolling the dice and then bang right there four fives, I only needed one more five to make a Yahtzee! And that is exactly what I got. It's so shocking to see what your going to get!

Seeing the different strategies people use can be shocking because some are really weird and some work. It all depends on the strategy you use. Some people like to make a wish before they let the dice go believe it or not, and one time it worked! Depending on the strategy you use it could help you a lot! The strategy some people use makes them win almost every time, but some make it really hard to win. Seeing what stratagys other people use can also help you!

Last but not least it's pretty simple to learn. Like when i was teaching my friend how to play it only took her a few seconds before she understood the game and then once you learn it's really fun! Also since it's simple it's not like people are gonna start yelling about how someone put draw four or how they knocked over the jenga tower, it's just simple fun that you really can't get mad at, it's just your strategy. It's a very fun and simple game.

In the end you can see why Yahtzee is my favorite, and now probably yours to because it exciting, seeing strategies is shocking, and it's so simple! So the next time if you see Yahtzee sitting on the game shelf pull it out and play!

My favorite game

Gavin Mcdonald

I love sports but there is only a couple of them that I like to play. I really love two sports baseball and football but my favorite is baseball. My coaches are the best they always help me out. My teammates and I always get to pick who we want to warm up with. Also, we are able to bring snacks to the practice no matter if we are inside or outside.

One thing is that my coaches always help me when I need it. They will tell me if I am doing something wrong. They will also tell me if I need to fix something. Also, their really nice to me even if they have a bad day. Something else is that they always make sure that no one is mad at themselves.

Another, thing is that we can always pick who we want to warm up with. The only time we are not able to pick who we want to warm up with is if everybody has a partner. Most of the time everybody picks their best friend. If they don't want to throw with their best friend they'll throw with someone that they know that can throw the ball good.

Something else is that we are allowed to eat food during the practice. Most of the time people bring some flowers seeds or corn nuts. Also, Sometimes people bring something from a fast food place nearby or what they're having for dinner. Some kids even share their snacks with their friends. Kids even Bring ice cream from places like Dairy Queen to the practice so if they get hot they can just have it.

I love every sport but there are certain sports I like to play. I have two favorite sports baseball and football but the one I like more is baseball.

My favorite game

By Izaac Slayback

My favorite game is roblox because you can make your own avatar, you can play games. About the currency for roblox.

You can make your own avatar by going to the icon that has your character on it.

When you click on it it will bring you to a place that says shop or make. If you have enough robux you can buy skins or clothing like a space shirt and little rainbow buddies. Speaking of robux, that is the next thing I'm going to talk about.

The currency of roblox is called robux and you can buy an amount that costs \$99.99 but there are cheaper ones. You can also redeem a robux gift card that will give you the amount of robux it says it is worth and you can spend it on clothing and on games. Like on gamepasses and in game currency so you can skip through the game.

For the final thing I'm going to be talking about is the games. Games in roblox are

the most fun part about it. Some games I love are Bee Swarm Simulator, Snowman Simulator, and dessert simulator. I'll teach you how to play some of them in bee swarm simulator is where you start off placing you basic egg in the hive slot that is empty when you get more bees you can go into different areas and fight monsters like a spider, werewolf, mantis, rhino beetles, ladybugs, tunnel bear, scorpions, and king beetles. You are also trying to make honey which is the money in this game.

This is why Roblox is my favorite game because you can make your own avatar. You can also buy the robux to buy gamepasses. But the best part is the games in roblox with types like action and adventure.

My favorite game

By Sidak Mehta

One of my favorite types of games to play are video games. Here are at least 3 video games I love to play. I suggest you try them out too!

First is the popular game Roblox. It can be for kids to play, and even for adults! You can see there are some adults that play Roblox on YouTube.

Second is a game called Fortnite. One thing I like about it is that it doesn't have that much violence. While it does have guns, it can be a fun game to play regardless of its weapons.

Third is a game called Minecraft. It is also very popular as Roblox, and very similar to it. One thing that is different is Minecraft doesn't have different games as roblox does. It is also very peaceful in Minecraft because you can farm and feed animals. You can also go to a place called the Nether, which are one of the places to beat the game.

In conclusion, these are all of my favorite games, and reasons why you should try them out too! The one I personally suggest is Roblox, because you get to chat with your friends, and they even added voice chat to it! But just so you know, you need a 13+ account to get voice chat. If you do, go to the settings where you can find it. Or watch a YouTube Video.

By favorite toy

By Brock Nelson

Legos are the best. They are so fun. I couldn't live without them. They are great. Because they are so so so so fun! One time I made a boat lego. And it is gating in proved every single day. And Did you now lego is over 100 years old!! That is so cool. It was made in over 1898 I bet when they were made they were so fun. And they bring me happiness and joy and more!!

Lego is Fun and cool but what do i biled!! I bilde cool stuff. Like I sede a lego

boat. And money boats and a. Plane which is so so so so cool. And I think a lot of people shield like lego and it is so fun. And it is very grate!! So I can do cool stuff with it. I can make a estment of that over.

My favorite game

By Jonathan Reel

I think that Dungeons and Dragons is the best game I've ever played. You go on quests and you get coins for doing to quests. You fight different monsters like bugbears, goblins, ogres, orks, lizard-folk, fish people, and so many different animals. You can get upgraded armor and you can get better weapons. You get to have one pet that will stay with you until you reach the end are died. You can make it to level twenty are higher but the higher you go the harder and easier it gets. you can pick your avatar, like if their a rogue human, barbara human. I'm a rogue dragon born, and you have a entire selection to choose from. You get weapons that come with your avatar. You can hunt animals and you can turn them into ratios. You can kill goblins and other monsters and you can level up. It's a really fun and hard game so if your up to the challenge then you would love this game.

My favorite toy

By Raegan Rush

My favorite toy is my swing set outside. One reason why that is my favorite toys because it is very fun, I get to be outside, it's also a great way to get along with one another. That is why I think everyone should have a swing set in their backyard that is why I think everyone should have a swing set in their backyard.

One reason why my favorite toy is a swing set is because it is much fun. One time me and my sisters love to play on The swing set. We played like this horse game and the swing are aware like horse and when we stopped we basically got like a faster horse or like more beautiful horse. We gotta to make up what we like to do and we gotta to make up what our horses look like we were looking forward to it every single day because it's just a very fun game. That is just one reason why I think everyone should have a swing set in their backyard.

Another reason why I think everyone should have a swing set in their backyard is because it gives you fresh air. You don't just get to be on your phone and sit on your butt and be lazy. But if you are on a swing set you get lots of exercise for your legs and body. It is very spacious but my swing set in the back of my yard is on a hill so it's kind of swings a little bit for us it's just very fun. That is another reason why I think everyone should have a swing set in their backyard.

When I grow up

By Jackson Barnes

What is your dream job? Mine is to be a zookeeper. You can feed and water the animals. It is so fun to feed and water your favorite animals. You get to see the animals every day. You might get to play with the animals. You can teach them tricks. A lot of the animals are very cute. You get to go to the zoo every day. Not every person gets to go to the zoo every day. You get to bring your family. If you want to be a vet you can work at a zoo to get some knowledge. You can get a lot of knowledge from animals. For school you have to go to college for 6 years. Two years for community special. Also you will have to go to college for four years to get your bachelor degree. So now do you want to be a zookeeper?

When I grow up

By Ryder Baird

Do you know what you want to be when you grow up? Well I want to be a Geologist when I grow up. First, the minerals are all unique. All the rocks are pretty in their own way. All the rocks are beautiful and very pretty. They all have different designs and give you ideas for art. Second, it is fun to learn all their different meanings. Amethysts are used for calming people and bringing people peace to you'r mind. According to Sarah Regan. Also cole uses are burning and help with engineering. According to American Society. Rose quarts is used for helping people with self-love, kindness and friendship and many more. According to Charms of Light. Lastly minerals are fun to collect. Some minerals are pretty valuable. You can actually make a good amount of money depending on how much they are worth. The minerals are pretty and fun to look at. Do you know what you want to be when you grow up? Well if you don't I hope I gave you an idea on what you decide what you want to be one you when you grow up.

When I grow up

By Greyson Higdon

Have you ever thought about being famous? Well I want to be a famous soccer player when I grow up and go to the World Cup. I will win and get a million dollars. Last year Cristiano Ronaldo got two hundred million US dollars when Portugal got second place in the World Cup. One time I got to go on the field and get a picture of a Liverpool player and get his autograph. My uncle let me go in the field because he worked for the Liverpool team. He filmed the games and also was an announcer once. I want him and my family to watch me and not be embarrassed by me and

not come to my games because I want them to be happy and joyful. One more reason I want to play soccer is to have my dream car, a Ferrari. I want a nice house and get my brother to college. I'd like to get him a Tesla. That is why I want to be a professional soccer player.

When I grow up  
By Hailey Knutson

What is your dream career? My dream career is to be a famous fictional writer. One reason is I love to make stories about pretty much anything. Once I was walking with my grandpa, who lives near a cornfield, and I made up an entire story about me and my sister being indians and harvesting corn for the village. Another time I made up a story where I was a colonist in America during the Quartering Act in May of 1765 and a soldier lived in my house. Next I love to write fiction. I wrote a story once about me as a half elf ranger in Dungeons and Dragons looking for team recruits. I am even working on a graphic novel about Medusa. Lastly, I love designing characters. I can make a character in a short amount of time. I love to make character sheets and make personalities for each one. Hopefully one day you will be able to buy my books.

When I grow up  
By Kayden Largent

What do you want to be when you grow up? I want to be a professional soccer player.

Well, there are many players that inspired me, but the main player is Cristiano Ronaldo. Ronaldo inspired me because he is one of the best soccer players known to mankind. He is the best player known because he scored 701 goals during his career. He started playing soccer in 1992. When I play soccer, my five senses come alive. I smell the sweat of my teammates and opponents as I pass them by. I smell the grass when I run over it with the ball going towards the goal. Sometimes I smell blood when I get hit with the ball. I feel the ball hitting my foot and most of the time it hurts. I feel my feet hitting the ground as I run to get the ball. I also feel my side hitting the ground when I fall or dive. I feel the ball hitting my hands if I am goalie. I hear people screaming and yelling when my team scores. They get very excited when they score a goal. I taste sweat dripping down into my mouth. I see my foot hitting the ground and going in the goal. I also see people running across the field without the ball. I know there is a chance if I get injured in my first season I would start watching games instead of playing in the games I would support Cristiano Ronaldo. Most games are played in France. Thousands of people each year that come to see players play

such as Ronaldo, Messi, Neymar, Mappé and Lewandowski. That's what I want to be when I grow up. What do you want to be when you grow up?

When I grow up  
By Reece Lyttle

Do you want to be a doctor when you grow up but don't like school but want the money that a doctor makes? Be a Physician Assistant also called a PA. You can earn about the same amount of money as a Doctor. Doctors make about 167,000 U.S. dollars, but PAs only make about 103,000 U.S. dollars. If you don't want to go to school but want to help patients. PAs go to school for a shorter amount of time. PAs go to school for 2 or more years to get a master's degree. PAs usually major in healthcare. The best college to go to is the University of Pennsylvania. Now you may be asking what Physician Assistants do in the doctor's office. A normal day for a PA starts off with either preparing patients for examination, taking EKGs, or drawing blood. They meet 14-18 patients per day. They also work 40 hour weeks. What do you want to be when you grow up or what are you doing for work? Have I convinced you to be a Physician Assistant?

When I grow up  
By Emma McClarnon

Have you ever wondered about what job you want to have when you grow up? Well, I want to be a teacher. According to salary.com, teachers get paid around 37k-78k per year. I would be able to pay bills while also having enough money to buy food and clothes, ect. I love to work with kids so I would be a great kindergarten teacher. Kindergarten teachers teach a little bit of addition and teach them how to write their name and memorize their address. I have a little brother and two little cousins that I get to play with sometimes. I love playing school with them and teaching them addition, subtraction and spelling words. My friend Callie and I are usually the teachers. Kindergarteners are so tiny and cute because they are just learning everything. Even though they are like tiny little monsters I still love to teach them.

When I grow up  
By Matthew Smith

Have you ever wondered about space? There's lots of stuff in space. There's lots of planets, moons, stars in space. But it's somebody's job to go up into space and get data and this job is called an astronaut. Neil Armstrong was an astronaut. He was the first person in space or on the moon in all of Earth's history. He changed history for the whole world, people used to think it was impossible to escape Earth's

gravity and get into space. He said a famous quote that is known to all people and that quote is "One small step for man one giant leap for man kind. There's lots of mysteries and also theories on space. There's a theory that white holes shoot things out of their range. There's black holes that have such a high gravitational pull on things that even light cannot escape. There's a theory that black holes suck things in and white holes shoot them out. Space is very fascinating. There's lots of galaxies in the universe and there all different and fantastic in their own way. There's lots of stars big and small they all shine bright in the night sky even the sun is a star. All the planets and moons are very fascinating and interesting. There's no gravity in space. You will literally float. You have to propel off of something to move in zero gravity. No gravity means you don't weigh anything. Well, now you know why I want to be an astronaut when I grow up.

When I grow up  
By Connor Roessler

When I grow up, I want to be a video-game designer! Do you want to be one? Let's find out! It's a fun job! You get to have fun making and testing your game, and it could be anything you want it to be! And you can let your imagination and creativity run its course. And you can express yourself. Your salary! Game designers make between \$45,000-\$140,000 per year! (According to Ziprecruiter and Glassdoor.) Game designers make about \$25 dollars an hour! They go to school for about 4 years, not too bad compared to other jobs! The best game design college in the US is The College of Southern California, in L.A., California. And if you DO major in game design, you can: Make your OWN game's instead of playing someone else's; Get paid for something you love; You can be creative; and you don't need a degree! And, you can brag about your job to your friends! And after all that, if you DO want to be a game designer, I'm going to talk about some of the best coding languages and search engines you can use! Let's talk about coding languages first, here are the top 8 in order. Javascript, undoubtedly the best language, next comes Python. Python is good for beginners, but even to the pro's, it's still awesome. Then comes Go, Go is high-level. Java; Java is good for mobile games and is also high-level. Also; Kotlin; Kotlin is good for experienced and beginners alike, and makes debugging easier, it also improves productivity. PHP is good for making web servers. C# is a good type-safe program. Lastly; Swift. Swift is powerful for most of the OS's. And then for the bonus; C++ is the best GAMING language. Best engines: Unreal Engines 1,2,3,4, and 5 are

easily the best tacking 1st; then comes Unity. When I think of playing games by Unity, I always think of the message before the game starts: Made By Unity. Then we go to Game Maker, then Godot, after that; AppGameKit; CryEngine, Amazon Lumberyard, and finally, RPG Maker. I hope you learned why I want to be a game designer and if you do too.

When I grow up  
By Grace D.

Did you know that doctors have many different paths when they step out into the medical field? I bet this paper will show you one you've never heard of! High paying jobs like a dentist are close to this, but the Anesthesiologist gets around \$208,000 US dollars per year. A month could make you at least \$30,000 US dollars. Top earners get at least \$192 US dollars in the hourly wage. Lowest get \$17 dollars in the hourly wage. Some work 60-80 hours per week and still are on call, some start at 6am to 3pm or much later in the evening. After 8 years of medical training after college and around 12-14 years in college leads you to that job. Cut! You may not be picked at random, but only the highest and best nurses are picked. You wouldn't want an okay surgeon or an okay anesthesiologist, you want the closest it can be to perfection. They work in the medical field. They are kind of like a standby in the medical workroom of surgeons. They stay by and check the body rhythm, heartbeat, blood pressure, body fluids, and body temperature. They do it to make sure the one having surgery is asleep during the process. For major surgeries they put the patient to sleep, for un-major ones they keep them awake like a tooth getting pulled out. Here are some fun facts about this job. The average age is 48-55 years old for an anesthesiologist. The first anesthesiologist was William T.G Mortan in 1819-1868. People who smoke need more anesthesia. Anesthesia doesn't always put you to sleep. Now that you know what this job is all about, maybe the medical field is / is not for you. Enjoy your day, see you soon

When I grow up  
By Callie Schofield.

Did you know that mechanical engineers make some of your video games? When I grow up I want to be a mechanical engineer. They do lots of math and that is my favorite subject. Every modern thing has been touched by a mechanical engineer. What I enjoy about mechanical engineers is how they help people. Mechanical engineers build elevators and that helps handicap people get where they need to go. Mechanical engineers build refrigerators to air condition all the leftovers, ice, meat, milk, sauce, and ice

cream. Engineers' salaries are amazing to help your family. Indiana's monthly pay for mechanical engineers is \$6,551 which is a large amount of money per month. Indiana's pay per year is \$78,623 which is a lot of money per year. When I grow up to be a mechanical engineer I want to build a bridge that is in California, Los Angeles and call it the unique bridge because it will have so many unique colors and designs. The mechanical engineer salary, how it is enjoyable and when I grow up I want to be a mechanical engineer.

When I grow up

By Reece Wilkerson

T-minus 10-9-8-7-6-5-4-3-2-1. Blast off! Have you heard of mission control? Well, I want to work at mission control for NASA. First, they are in charge of flight management for the International Space Station, also known as the ISS. They alert the crew on board if there are any problems, for example of radiation signals or malfunctions. Second, they're are only two companies that send people to the ISS. For example, NASA which is owned by the government, and SpaceX which is owned by Elon Musk. Lastly, the schooling required to work for mission control is a bachelor's degree in engineering, physics, or mathematics. The recommended college is Purdue. Now you know all about mission control.

My favorite game

By Ethan Grant Schreiber

Boom! Bang! Smoke is everywhere. The guns are firing in the game of Empire Total War using your armies to get the biggest empire the world has ever seen. It is so fun because you can play with friends and family. You can even have online battles with allies. It doesn't cost that much, only thirteen dollars. And you can transfer accounts from one computer to another. It can help you with Education in History and English having some big words like minutemen and light infantry even line infantry it has all the real historic places that the countries had, allies even the wars and they're all accurate like the Mughals and the Maratha Confederacy at war or Poland Lithuania is as a protectorate of Courland its a game of strategy outflanking and outmaneuvering your enemies then taking the city and destroying their land. Using your navy to transport your troops to the land of the unknown having to put down rebellions or be it. But no matter what scenario your in from bankruptcy to starvation the game never ends with problems everywhere with you fighting on two fronts or going to war with a super power like Great Britain, France, or even Spain at its golden age. So what are you waiting for

get the game on your computer and start making your empire.

My favorite game

By Calvin Ballard

Okay let's cut right to the chase, waste no time here. In my opinion, Acron: Attack of the Squirrels is the most, sans pareil, video game ever! Here's how it works. You can play on mobile or on VR (virtual reality). The player on VR is the tree on which you need to protect the acorns by throwing brambles, bombs and even the players on mobile. You get to do a tutorial and learn how things work on VR. To be a squirrel you have to play on mobile and have to get the acorns from the tree and must work together to get all four acorns. The acorns spawn in one at a time. Now it's time for the skins and characters for the squirrels. There are four squirrels you can choose at the beginning of the game or when you die. You can be a big squirrel who can activate a shield, a skinny squirrel who can build ramps (which the tree can also pick up and throw), a squirrel that is also skinny but can run extremely fast, but last but not least the smallest of all, the digger squirrel. Next, it is really funny. I threw my cousin up and caught him and repeated and it was hilarious. For my last reason it brings people together, even if you don't like video games or who you're playing with. If you need some acorn content this is the time to go get Acron: Attack of the Squirrels now.

My favorite game

By Mia Lautenbach

Did you ever wonder what basketball is and how you play it? Well I know, and guess what? Basketball is actually my favorite sport! Can you believe that!? My favorite people to play basketball with are mostly my friends, they sometimes get along with me when I am playing on the court. But sometimes not. The reason why I like playing basketball with my friends is because when I play basketball with my family, me and my sister argue a lot. But when I am with my friends, we don't argue as much as me and my sister do. So if I was you would I argue with my friends and not argue with my siblings or parents? Or maybe just be like me and argue with your siblings a lot and barely argue with your friends? The reason why I play is because I like to be fit and still do what I like. Also I want to be an all star athlete in the WNBA, Women's National Basketball Association, and beat a huge world record and be better than Micheal Jordan. But maybe that might not happen but I still believe in myself. Basketball is definitely the best sport/game in the entire world. Basketball is a competitive sport that is fun and rough at the same time.

Basketball is so fun that if you score at least ten points each on my team then you get free concessions. Now that you know a little bit more about basketball, you can play at the boys and girls club in Franklin, Indiana.

My favorite game

By Quinn Zarse

Do you have a favorite video game? I do, and it's Roblox. I like to play it with my friends. My friends can come over to my house and play Roblox with me. Next, I can go face to face with my friends and do competitions. One time me and my friend Finn played Hide and Seek Extreme. The first one to get found lost the game. I won! Now me and my friend get to play Hide and Seek Extreme and see who wins next time. Next, Roblox is not just one game, there are multiple games inside of it. One time me and my sister played Daycare Story and my sister got super scared. I also play parkour games, me and my cousins played Escape Barry the Police and it was very funny. I got Roblox and played games. Additionally, I customized my avatar with any category I wanted. I also made my avatar look like myself with dirty blond hair, a black cat shoulder pet, and an Indianapolis Colts jersey. Also, people that I see in games can see my avatar and you can see theirs. Lastly, I meet online friends. I became friends with my next-door neighbor and played a game with him. I also can join my friends when they do not even know. Download Roblox now and start your adventure now.

My favorite game

By Lizzy Sanchez

You've probably heard of many different kinds of games. My personal favorite game is Roblox. Roblox is an online gaming system that you can be you. To play you need to create an account. An account has to have a username and password that you can customize any time you want. This process should be pretty easy. You can play on almost any device. When you are logged on you will have a display of your friends and different games. My personal favorite is Bloxburg where you can build and design your own house and role play with other players online. There are many different kinds of games you can choose from like obstacle courses, drawing games, board games and more. You also can buy in-game currency called Robux. Robux can be used to decorate your avatar and buy certain things in games or to buy games. Roblox is fun to play with friends and family if you are in the same room or not because Roblox has a feature that you can add friends and talk to each other and join each other's games. There is also a chat that is in game to talk to others. If you do

not like talking to others you can just turn off the chat in settings or go into your own private server. Do you want to create a game that you want your friends to play and enjoy? Well you can! Though this feature is only available on PC it is fun to create and customize your own personal game. You can also do this to your avatar that you can wear and show others while playing your favorite game. There are also ways to create and sell clothes and games to others for Robux. Roblox also has collabs with musicians for concerts in Roblox that are free! I hope you learned a bunch about Roblox's game, social system and how it works.

My favorite game

By Allison Case

Hey did you know that LeBron James once said, "You have to be able to accept failure to get better." I just love that quote because it makes me feel like it is ok to fail. You don't have to be perfect all the time and you don't have to be afraid of failure. He inspires me and I know he is a boy and I'm a girl but I am black like him and no one stopped him and if they did he would just ignore them or brush it off. He didn't cry but he stood up for himself and that is all that matters. LeBron James inspires me because he is amazing at basketball because he never gave up and now he is in the NBA. I mostly like playing with my friends. Mainly because my parents don't like to play, they only like watching me and my teammates. They make it fun. I like playing basketball because it is very fun and you get to hangout with your friends while playing your favorite game. I also like when my parents watch me when I make a basket they always embarrass me. Now what are you still doing sitting around now that you know that basketball is the best sport ever go ask your parents to sign you up or sign yourself up for a basketball league and get to playing oh and also don't forget to pick your favorite number for your jersey number.

My favorite game

By Roarie Davis

What is your favorite video game? My favorite video game is Roblox! I love Roblox. Let me tell you a little bit about it now. Roblox is an online game that pretty much anyone can play, no matter if you're ninety one, thirty five or eight, you can play Roblox! Roblox also has many levels of protection and security, so you won't get hacked or anything. You may be wondering what would I get hacked for? Well there is an in-game currency called Robux that you can buy with real money. Not a lot of things cost in Robux but it's nice to have for your in-game avatar and some game purchases. Roblox

is a platform that holds over forty million games made by other people, wow! With so many games to choose from you could play all day! My favorite game is called Adopt Me, which is a game where you can get pets and talk to other people. You them, from roleplaying games to spooky scary horror games Roblox has it all! The best part is that the games are made by other Roblox fans! So you can support them by liking the game or even favoriting it. Click the like button and or the favorite button! The next reason I love Roblox so much is because it is so fun you will play for hours on end! I even sometimes like to eat a small snack after school while I play Roblox, then I end up playing forever! You know what they say time flies when you're having fun! The last reason I love Roblox is because there is a chat in every game! That means you can make new friends and also play with friends that you know in real life. I like to play with three of my friends, my best friend Hailey, and my other two friends Lizzy and Reece. We sometimes all play together! I met Lizzies friend Elora in a Roblox game and she gave me a free legendary flyable pet on Adopt Me. She was so nice! I also have many other friends on Roblox. One time some of my friends and I played Adopt Me together. We had so much fun! So go download Roblox right now! If you have a birthday coming, you should ask for some Robux. I hope you enjoy Roblox just as much as I do!

I want to be an animal photographer when I grow up. I really like animals and I think it's amazing to see them in nature. I would travel to places and go around find animals. Then I would be very quiet and take their pictures. My pictures of animals would be used in online stories and even in movies. I would take the best pictures of animals because they will see that I am nice and kind and will not hurt them. The animals will know me and be excited to see me when I visit them. If I work really hard, I might get a medal for how great my animal pictures are!

When I grow up I want to be a cowgirl. I love horses and unicorns. I want to be a cowgirl because I could ride horses all day long. I would have to water and feed all the animals that live on a ranch.

When I grow up  
By Bree Diss

I wanna be a veterinarian because I want to help pets. I know if I go to school to be a pet doctor I will have to work very hard and learn lots of science and math. Then I will be able to help animals get well and be healthy. I can tell the owner all about the medicine they need and I can tell them if their dog is sick or not sick. I really like cats and I think I'd be really good at helping them get better.

When I grow up  
By Emily Thomas

I want to be a veterinarian because I like animals. I like to help animals. I would help animals if they got a splinter stuck in their paw. I would help get it out and put a band aid on it. I would have to give them check ups to make sure they are healthy.

When I grow up  
By Storm Sage

I really want to be a trainer for dogs and cats because I really love dogs and cats. A trainer helps dogs and cats learn things. They are a teacher for animals. I could teach dogs how to sit down. I would also train them to play nice with other cats and dogs.

When I grow up

Cozy Cat Café  
By Yazmine Garcia

When I grow up I want to be a business owner. I want to open my own cat café. It will be called Cozy Cat Café. In my cat café, you can drink coffee, eat pastries, and play with rescue cats. The money from the cat café will be used to buy things to help take care of the cats. The cats you meet at my cat café can also be adopted to help create homes for cats without one. The goal of my café is to help cats find their forever home.

By Klarissa Majors

What I want to be when I grow up is an actor because I really like acting a lot. Drama Club really helps me with acting. In Drama Club we learn how to sing and dance. I really like singing and dancing. When I practice at Drama Club I have to act to be a sailor and a tourist. Actors have to remember their speaking parts, like in Drama Club I have to say seven speaking parts. An actor also has to wear costumes for their different roles. In Drama Club, I have to have two costumes. First I have to be a sailor and then I have to change and be a tourist. It is really fun to act in plays or movies. I hope one day I have an acting career and make lots of movies and shows.

When I grow up, I want to be a dermatologist. Dermatologists are different from other doctors because they work on things like skin, hair, and nails. The job of dermatology amuses me because if you are a dermatologist then you most likely will not see the same things every day. You also get to work with different patients every day. Dermatologists do things like freezing off warts and reducing the appearance of scars. In dermatology, they do laser hair removal, but they also treat balding. Dermatologists help nails by diagnosing nail fungus, ingrown nails, and infections. I like dermatology because it combines beauty and science. That is why when I grow up, I want to be a dermatologist.

When I grow up

By Maci Hafen

Hi, my name is Maci Hafen. My dream job is involving wildlife! Can you guess what it is? If you guessed wildlife photographer, you're right! Being a wildlife photographer can be tricky. Sometimes an animal just won't stay still! You will also be in the wild! It may be dangerous. Mosquitoes can also be annoying. They can give you Chikungunya, Yellow Fever, West Nile Virus, Dengue Fever, Filariasis, and Zika Virus. These are a few sicknesses mosquitoes can give you from their bite, but it depends on where in the world you are. You can also get amazing photos! You get to meet animals and have a team to work with! It will be fun, and there will be laughs. That's what I want to be when I am older! Have a good day!

When I grow up

By Samantha Sebastian

When I grow up I want to be a doctor. Being a doctor is an important job. I could work anywhere in the world because everyone needs a good doctor. Doctors make sure that people are healthy and if you are sick, they help you get well again. I like helping people, I am really good

at listening, and I think I would be really good at keeping people healthy. I would have to go to school for a long time to learn how to help everyone. I think I would be a great doctor.

When I grow up

By Sanvi Gupta

When I grow up I would like to be a teacher because then I can teach very interesting things like how big is a car? Is it 1 yard big? Or is it 4 yards big? I can teach mathematics like there are so many ways to make each number. I can make math easier for kids. I love to tell people interesting things and I love helping little kids. So those are all the reasons I would like to be a teacher.

When I grow up

By Lydia Nicermawi

I would like to be a doctor because I like to help people and kids and make kids smile. When I give kids toys to play with when they are waiting to get a checkup. I like when kids are smiling. Kids smiling makes me smile, too!

My favorite game

By Jalib Niaz

Uno is the best game. My family likes it. It is a card game. It is like the best game in the whole world. I think so. I think the second best is to read a book. My favorite book is Charlotte's Web. The main character is Charlotte and she is a spider. There is Wilbur he is a pig. Reading is fun, but my favorite game is Uno. It makes me

happy to play it. I love it.

My favorite game

By Elisha Thang

My favorite game is Roblox. Roblox is a kid's game, and in it you can play thousands of games! You have an avatar that you use in the game. You can change your avatar and be anything you want. I like this game because you can play with your friends and have fun hanging out.

My favorite toy

By Hemanya Kosuru

My favorite toy is a kitchen set. I like my kitchen set because I love cooking. I love to cook and serve food to people. I pretend to play as a chef in the restaurant using my kitchen set. Also, I pretend to play the role of cooking dishes for my family using my kitchen set. I have pretend food that I use when I am cooking. I really like to play with my kitchen set and not only me, but my family also has fun. Especially my brother, he pretends to help me when I am cooking. That makes me smile and keep smiling. I have so much fun playing with my kitchen set!

I want to be an astronaut when I grow up because I want to see outer space. When I was in India I always wondered how big is the solar system. I want to travel from one galaxy to a different galaxy. How big is the space? What planets can we live on? How is each planet different? To answer those questions I will need to be an astronaut.

When I grow up

By Jacob Mung

When I grow up I want to be a teacher when I grow up because being a teacher looks fun. You can teach students about anything they need to know. Another reason is that I want to help people. The last reason is because there are many people around the world that needs help that don't get help. I can teach them to read and count really big numbers. That is why I want to be a teacher.

My favorite game

By Jesse Nuan

I like Legos but I specifically love the Lego Orchid Flower. The Lego Orchid Flower has many upsides but it does have some flaws as for now we'll talk about the upsides of the Orchid Flower. The first upside is that it can be rearranged to sometimes look different. Another upside is it basically can be built by any age that's

above 7. Also, they're not as many pieces in the set, only 608. You might think that's a lot but some other Lego sets like the Lego Atari set that has 2,532 pieces, now that's a lot. This set also looks beautiful. Now let's talk about some of the flaws. I didn't really want to do this part, but anyway. One of the downsides is that there are some pieces that don't fit really well. Also, the bottom easily breaks, so be careful when holding it. That ends the upsides and flaws. I hope I encouraged you to buy or order this Lego set.

My favorite game

By Reuben Eng

One day my friend let me play on Roblox with them. I was playing different games with them. After that, I was getting more into the game. It is now my favorite game. I think it is the best game in the world. In Roblox, I have 200 friends. I like to play games with them.

My favorite game

By Aisyah Stiffler

I love Roblox. It is a fun game that you can make friends in. Roblox games are very fun, too. You can dress up your own avatar. In Roblox, you can look 3D or 2D. Now we are going to talk about Obbies in Roblox. Obbies are easy and hard and medium. Some are 2 players and 3 players and 1 player Obbies are really fun. You should try Roblox.

When I grow up I want to be a nurse and the type of nurse I want to be is a labor and delivery nurse. Here are my three reasons why I want to be a labor and delivery nurse. The first reason is delivering the baby to its mother and seeing the mother be so happy. It makes you feel proud of yourself. Next, you get paid a lot, so you don't even have to worry about your bills, and you can buy stuff without worrying about money. Lastly is being a part of life. What I mean about that is helping babies be born into life. Helping families and parents happy and proud of their children.

My favorite game

By Adam Stiffler

My favorite video game is Fortnite. Fortnite is a fun game. In Fortnite, there are different characters. One of the characters is Golden Midas. Golden Midas turns things gold when he touches them. In Fortnite, there are seasons and chapters. When I started chapter 2 season 2. Fortnite has been around for 5 and a half

years. Now I'm going to talk about game modes. The game modes are solos, duos, trios, squads, arena solos, arena duos, arena trios, and creative. Solos are one person playing, duos are two people team together to play. Trios there are 3 people, squads have 4 people play. Creative is when you build your own things. I like playing Fortnite.

### Westwood Elementary FOURTH GRADE TEACHER: KRISTEN RATZMAN

An Archaeologist

By Lydia

When I grow up I'd love to become an archaeologist. Studying ancient artifacts, discovering more about history and the people and animals who once walked this land is a very interesting topic for me.

The first thing that got me interested in archaeology was actually my name, funny enough. I was researching what it meant when I discovered the ancient kingdom of Lydia, which was the kingdom making the first substantial form of currency. After that I found myself more interested in the past and different cultures.

I started researching, watching documentaries and getting more and more involved.

Then I found out about archaeology, excavating interesting artifacts from history that were once held by famous people from the past just really caught my attention as a very intriguing hobby that I could pursue.

Imagine the look on my face when I found out that it was an actual job that I could do for real money!

Immediately I became very interested in it and started to do tons of research.

The more and more I read, the more and more I knew I wanted to become an archaeologist.

When I grow up

By Cole

When I grow up I want to be a MLB player because I can hit bombs and I am good at baseball. I want to go to Florida and see the alligators.

I can hit bombs because I am good at baseball. I love baseball and I want to play for the Padres. I want to meet Fernando Tates Jr.

MY Dream

By Kylie

My dream is to be a teacher because I like little kids. I want to teach 2nd or kindergarten. It might get really annoying. That's what I want to be when I grow up.

I want to teach them because they will be really cute.

It will be fun watching them learn. We will have a classroom pet which they will

love. I will take turns with letting them take the pet home for a day. I will get them snacks. I will have classroom rewards. Like if they get 30 mins of I Ready. They will get Ice cream if they get it done.

Another reason that I want to be a teacher is I want to make kids smarter. I am going to teach kindergarten and then I am going to keep going up in grades.

I also want to be a teacher because I want to see the kindergartener make friendships. Those are all the reasons that I want to be a teacher.

When I grow up

By Jaylen

When I grow up I want to be an MLB player. Any day of the week I would play baseball because it is my favorite sport. Also I would like to start my own business so I can give motivational advice.

I want to play baseball because I love the sport. I have played the sport since I was 4. I also want to help my family because when they get older I want to give them money so they don't have to run out of any because right now they do not have that much money.

I want to start a business for motivational advice because I want to help people that struggle a lot with things they love. I want to give motivational advice so I can keep people from quitting the things they love.

That is why I would like to play in the MLB, and start a business of motivational advice.

When I grow up

By Katelyn

When I grow up I want to be a designer. Being a designer would be fun. I want to be a designer because I would like to organize the place I am designing. I love organizing my room and it would be even more fun to organize a big place.

If I become a designer I would design teachers' classrooms. I would design teachers' classrooms because if I can't become a designer I would become a teacher.

I love organizing my room. Sometimes I do it just for fun. You will rarely find my room dirty. If I am bored sometimes I will reorganize my room. Organizing is important because you need to have everything in order to be a designer.

Those are some reasons why I would want to be a designer. I would also like to be a teacher. I think I have told you that already though.

What I want to be

By Kensi

My dream is to be a WNBA player because I like to play basketball. I'm good at basketball and get a lot of assists. I'm also very brave and courageous which means

I can take a hit and be ok. That is what I want to be when I grow up.

I'm good at basketball because I can shoot laps, shots, and free throws. I can also get a lot of assists and throw the ball down the court to my teammates to get more points. I can also rebound and block out a lot, which will help my team.

I'm very courageous which represents that I'm brave. I like to ride roller coasters. I like to jump off the high dive at freedom springs.

I would like to accomplish this with others. I want other people to believe that everyone can accomplish their goals like I want to. That is why I want to be a WNBA player.

When I grow up

By Immacule

When I grow up I want to be a Doctor or a Nurse, because doctors take care of patients that are sick or hurt so I want to help them to get better.

Whenever I look at the hospital I would be happy to see it because it could help me become a doctor. Becoming a doctor could help everyone in place. I would help children, adults, and my Mom and Dad.

Every time patients meet me, I will ask them what happened to them. Then they would tell me what happened to them.

Doctors and nurses are respectful and responsible for taking care of everyone, and healing people.

\* Fun fact\*(There are about 1,062,205 Doctor in united state)

What I want to be when I grow up.

By Reagan

When I grow up I want to be an Art Teacher. I want to become a teacher because I love to do fun colorful projects, and it would be fun to even make my own projects.

Art is very simple and it is very calming to do. Even if you had no idea how to paint or draw you could still do it and it would look good.

When I do art it makes me happy and I get to do what I want to do. I am also able to get creative. That is why I want to become an Art teacher.

When I grow up

By Ethan N.

When I grow up I would want to be a singer ,and have a part time job as a baker.

Baking and singing are both really enjoyable to me so I wouldn't get bored doing them. Baking and singing are both things I enjoy but it would be stressful.

The requirements to become a master singer is to record and make your own songs. To become a master baker, you have to go through all of the training which would take about 3 years. you have to

have ten years of experience so 13 years of baking to become a master baker.

There are about eight million bakers in the USA so one in 200 people are bakers. There are about 27 million singers in the US so there are a decent amount of both of them in the USA.

Singing and baking both make lots of money. Singers can make 100 thousand dollars a year And successful bakery owners can make about 70 thousand dollars a year but that is for owning a bakery a baker could make about 30 to 40 thousand dollars.

This is why when I grow up I would want to be a singer and or a baker when I grow up.

When I grow up

By Graham

When I grow up I want to be a geologist. Geologists study rocks I love rocks and I love to collect rocks. So far in my collection I have over 200 rocks.

My most expensive rock is a crystal and it cost 30\$. It cost \$30 because it had no dirt on it and it was shiny and clear. It's my favorite crystal. My collection also has Amethyst, Arrow heads and cobblestones. Since I live in Indiana most of our rocks are red, brown, tan and black. When I become a Geologist I will travel to other states to find other cool color rocks like blue, green and rose. .

The most expensive rock is a blue diamond which is 3,390,000. It's on display in a museum in Washington DC. I think it was found in a big forest next to a river but I'm not sure.

WHEN I GROW UP

By Elsie

I am obsessed with baking. I love food. So this would work out to be a baker.

I could say that this fits me well, because I have always wanted to be a baker and here I am. I always bake dessert or breakfast at my moms and they love it, I have a secret,I never use measuring. One time I made a heathy-ish cake bite, I used oats instead of flour!

A baker needs to like food, like me I love food. I always make me food and I love my food. So food is food like my favorite food is pizza and sushi, thats why food is in this paragraph.

Thats why I want to be a baker!!!!!!

What I want to be when I grow up

By Carma

What I want to be when I grow up is I want to be an artist. They paint, draw, and also sketch. They make paintings and maybe sell them they don't have to. There are famous artists. Like Bob Ross. He is very famous for his paintings.

Why I want to be an artist is because I'm really good at art. And it's my hobby.

And I love to make pictures when I'm bored. And a lot of people ask how can you draw like that. And I say take your time and work hard.

I love to draw and paint. And I love to make pictures for people. When they're mad, sad, or they don't feel happy. I love to make them pictures. A lot of people ask me to make a picture for them. And I have no problem doing that.

I also LOVE to work with my dad. He and I paint together. And we painted a table before. And it made me so happy. He and I worked together to make a will you marry me sign for my mom. When she came back home for work. I painted and he made the letters.

When Dylan grows up

By Dylan

When I grow up I think that I would like to have a famous breakfast restaurant that makes a lot of money and that will be well known and popular.

I have been wanting to be a restaurant owner /chef for years now and one reason that I would like to be one is that they can make a lot of money as you can see in restaurants like mcdonalds wendys chickfila etc.

I also think that if I were to be a restaurant owner/chef that it would require a lot of hard work and I LOVE work because I like to feel accomplished about myself.

And I think last of all is because I want to be a restaurant/chef. I could be well known and famous. And if i could pull this off by myself I will keep all of the profit that I get from the restaurant yay.

If all of this fails then I have a backup plan of becoming an author since I do have a talent of coming up with stories.

So in conclusion I have two ideas for what I would like to be when I grow up which is to have a famous restaurant and be a famous chef and be an author if that doesn't work. So that is the end of my essay. All of this is true and what I will try to accomplish in life.

What I want to be when I grow up

By Maverick

When I grow up I want to be a cummins worker with my dad and his friends. I want to work on the same thing as him so I can help him. He started when he was 24 or 25 years old. He is 35 now so he has worked there for 11 or 10 years now. I forgot what he worked on before but he switched a couple of years ago. He is now working on harnesses. He has been working on them since we moved into my mamaw and papaw's house I think. We moved into their house about 1 or 2 years ago. I like to help when I can or if I can.

When I grow up

By Ethan T.

I want to be a lacrosse player in the PLL (premier lacrosse league). I also want to be a better lacrosse player. In fact lacrosse is the fastest sport on two feet.

I also want to be a lacrosse player because you can make up to \$50,000 a month so that means an apartment and rent and more money to buy lacrosse gear, and another reason is it is very good exercise, there are a lot of plays including midfielder, attackmen and many more! Here are players that made me want to play lacrosse including Matt Rambo and Ethan Walker.

Also I want to go to Notre Dame to play lacrosse and learn more about Lacrosse even though you can get hurt badly if Michel Showers can survive a bad hit in the head, I think I can too, all right enough about that let's move on. Although lacrosse might not be the sport for everyone, I think it fits my personality amazingly and I would 100% recommend Lacrosse to a kid who is looking for a sport to play.

So that's why I want to play in the PLL. Have a good day!

What I want to be when I grow up

By RyAnn

This is what I want to be when I grow up. I want to be a dog trainer because I love dogs and they are easy for me to take care of. I am thankful for being with dogs that make me go to a good place. dogs. A dog trainer in Indiana makes 33,264 and the monthly pay is 2,772. That's why I want to be a dog trainer.

So then I can train people how to take care of their dogs and if they live by themselves then somebody breaks in the dog will protect them and will attack so the owner can go call the cops and then they will go to jail.

Taking care of dogs is a good thing because if you want a dog when you get older you will know how to take care of them.

My Favorite Video Game

By Jacob

I like to play Roblox when I have free time. I am a video game lover and I like to play it when I'm bored of any other game after playing for a long time. And think of it as an app that has many games in many different types. Many people play it and you can play on a computer, your phone and Xbox.

I like to play it because of all the different types of games like tycoons, simulators, PVP games and More! More reasons I like it are that you can play with your friends, and change your avatar to make it the way you want it to be. The game is also cross-platform so you can

play with your friends even if you are on different devices!

More reasons I like to play Roblox are that they have a thing called Roblox Studio where you can make and release your own games! I have never been on Roblox Studio but all the popular games exist because of Roblox Studio and people make money off of these games! It also has an in-game friends list!

Today Roblox is a big game that is very popular. With many people playing it all the time! It may not be one of the biggest games but many people still play it! And those are all the reasons why Roblox is my favorite video game!

Nintendo switch

By Nolan

My favorite toy or game is the Nintendo switch. It's my favorite because it can have multiple games on it. It can have downloaded games, or you can put game chips in it and play on the nintendo.

I think you will like it because it is fun and you are too. I have one and I have a lot of games on the Nintendo switch. I think you will like it because downloaded games don't get lost.

I have a lot of games. I have Mario kart, Minecraft, Minecraft Dungeons, Mario Odyssey, Mario Maker 2, Legend of Zelda: Breath of the Wild, another Legend of Zelda, Plants vs zombies Mario 64, Nintendo classic games, Pokemon sword, Pokemon legends: Arceus, Pokemon pikachu, and Nintendo switch sports.

The Nintendo switch is really fun. This is why the Nintendo switch is my favorite toy or game. This is why I think you should have a Nintendo switch.

My favorite video game

By Lukas

I love video games. People probably would think that. But, my favorite video game is called Halo. It is really fun to play. I will tell you more about it.

Halo is a fun game to play. It is a game where you uncover secrets of a thing called a halo ring. While uncovering the secrets you battle aliens. There are grunts, elites, jackals, brutes, and hunters. Hunters are the hardest of the covenant but, there are more enemies.

Halo seems like a hard game so far but it gets even harder. There are about 12 different halo games. All of them except one you have to go through the covenant. A Fact about halo, when halo was made it was the best first person shooting game.

Halo 2 had the most copies sold with 8.49 million copies sold. I will tell you about the other enemy I said before. The enemy is called the Flood. It is not like the covenant. It is a parasite that if it gets you, you turn into them.

That is why halo is my favorite game.

My favorite video game

By Gracie

My favorite game is Roblox because there are many games you could play but you need to sign in though but that's ok because when you're signed in you get to play tons and tons of games and you can make your own avatar. There are pants, shirts, t-shirts, hats, faces, and wings. My favorite game is doors, tsunami, paintball, and curse randomizer. And when you name your avatar it does not stay there forever you can actually change your name.

My favorite game

By Teddy

My most favorite game is Super Mario Galaxy One I like it because it challenges me alot. I play it by myself. Another reason I like it is because everytime that I lose a round I can try something new and succeed.

MY SWITCH

By Adam

My nintendo switch is my writing topic and one of my favorite things. My favorite game on the Switch is Super Mario 3D world. It is basically 3D mario bros but instead of saving peaches you save fairies that let you move on to the next world. You also need green stars to unlock certain stuff.

Another game that is fun is Mario Kart 8 deluxe. I think you would like it because it is a 1-4 player game which means you can play with multiple people. You can get new tires, cars, and gliders.

I also play Super Mario Odyssey. You have to collect power moons and travel to different worlds and defeat bosses. You can throw your hat to turn into people.

My switch is my favorite toy or game. That is my writing and I hope you liked it.

My Favorite Game

By Colin

My favorite game is Gorilla Tag.

I can play it on my VR headset when I'm home after chores . It's cool .

Gorilla Tag is very fun because its basically an exercise game because you use your hands to move around.

I'm not that good at it but I'm decent at it.

There's 2 modes I'm telling you about casual . Casual is basically practice mode because there's no lava monkeys "but there is in the next mode I'm going to tell you about" .

Now I'm going to tell you about infection mode. There's lava monkeys everywhere . The lava monkeys job is to tag all the players .The not lava monkeys job is to not get tagged by the lava monkeys.

My favorite game

By Annabelle

My favorite game is castle cats. It's where you get to play as a cat. Cat guild leaders get to fight the evil pug.

MY favorite game is castle cats because you get so many cats. it's so fun to play because you get to play mini games. When I play I can play mini games and get gems and get cats.

Mini games in castle cats are fun but there is a mini game like candy crush. you can get cats from the daily check in when you login but you can get special cats from the past and its limited time.

Another reason why Castle cats is a good game is because you can get a mystics in seconds and gems but mystics cost 75 gems. you can get so many cats and gems if you work hard in castle cats.

Castle cats is a good game for me and it's free and you can get it on the app store. so try this game and see if you like it and that's all I have to say and have a good day.

My favorite game

By Devin

A game I like to play is Raft. I like to play Raft because it has islands. You can collect materials with a hook. It is a free playing game.

I like to play with the islands because it is in Creative Mode. You can mess around and use a 2x2 and build your own raft. When you are in the island mode you can choose your own materials and melt ores down to make Tier 2 hooks.

Copper is a material where you can build a radio and a battery. A radio can point you to the storyline. The battery charges the radio.

TEACHER: JENNY THOMPSON

When I grow up

By Drake

When I grow up I want to be an engineer. The reason is that I want to learn about robots and car engines. There are some engineering schools in Indiana like Purdue is a good engineering school. When I get to middle school I am going to do robotics. It looks fun and challenging, that's why I want to do it. When I get older I am going to change my dads car oil and fix robots. I want to go to Purdue and have a permanent form in engineering. After that I will continue with my career in engineering. And make more really cool stuff with license plates and metal poles and steal boards and other stuff like real engineers.

When I grow up

By Khloe

I want to be a gymnast when I grow up be cubs I wen to tench them to do the beam whin I grow up. I wunt to teach kids to be good listeners. I want to teach them how to do bars I want to do back bens.

When I grow up

By Quinn

When I grow up I want to be a colt's cheerleader. I like to cheer and I think it will be fun. It would be fun to meet new people. It would be fun to learn new cheer's. It would be fun to meet the football player's. It would be fun to wear the uniforms. It would be so much fun to meet the coach. It would be pretty fun to do cheers every day but I would be pretty tired like my teammates. You probably would make a lot of money maybe. My mom was a cheerleader so I want to be one. It would be so much fun to travel around the world for football.

When I grow up

By Evelyn

I want to work as a dog rescuer. I want to be a veterinarian. I want to be a dog groomer. I want to be a dog owner. I want to be a animal rescuer.

When I grow up

By Huxlee

I want to be a cowgirl because they get to hang out with animals a lot. They also get to ride horses and race and showjump. Cowgirls do lots of things some live on a farm others have to drive to a farm to see there horses and other farm animals. I already have one horse but it lives at my grandpas farm. There are lots of different types of horses like an appaloosa like I have or a paint horse or belgene or draft horse or arabian. The mane reason I want to be a cowgirl is because its a fun job and i get to meet new animals like dogs, cows ,cats, horses, chickens, roosters, sheep, and much more. Even though there are other awesome jobs I would love to be just a cowgirl and compete in races and other cool stuff like that.

When I grow up

By Livia

When I grow up I want to be a teacher. I can use the stuff I learned in school to help me. I can make people really smart. I can do stuff like help people that need help . Teachers are cool in many ways .

When I grow up

By Kane

I want to be a football player win I grow up because you can win in the super bowl in football. You guide your team in the super bowl and win the trophies and rings. You get lots of money and have fun doing

football! You do haft to think in football.

You run a lot in it is fun win you run.

When I grow up

By Emmaleigh

When I grow up I want to dance because you can perform on stage and have fun you can do dances on stage. The judges decide who wins the dance . The winners are very happy they move onto the next competition. They do more dances on the stage. You win at the end and earn a prize.

When I grow up

By Addelyn

I want to be a nurse. I want to help people because some people need help to walk and people need help to see . And people oso people can get mesne to.

When I grow up

By Lila

I want to be a nurse because I want to help babies. Babies are cute. I want to help moms with babies in their belly. I want to change babies' diapers. I want to change babies coles. Moms are happy. Babies are loved.

When I grow up

By Rudy

When I grow up I want to be a doctor and reasons I want to help them. I want to save my money.

When I grow up

By Kameron

What I want to be when I grow up is a soccer player. The reason is I love the color of the soccer balls. And I like soccer because I can beat a team and I can maybe win.

When I grow up

By Kaden

I want to be a police officer when I grow up. I can arrest people. I can drive a police car. I can take people to jail. I can save people. I can ride in a officer car.

When I grow up

By Maelynn

I wut to be a dog and cat rescuer bcus I wut to saf animals. And I wut to fin is onr. I luf animals. Win I see a poor anml I wil pic it uq.

When I grow up

By Waylon

When I grow up I want to be a baseball coach. It looks super fun. I love pitching. I love hitting. I love catching.

When I grow up

By Soren

I want to be a veterinarian. I want to give them medicine. I want to feed the animals

food.

When I grow up

By Gage

When I grow up I want to be a monster truck engineer because I want to work on monster truck's. I can take wheel's off and work on the engine and change spark plugs and put oil in the engine. And change the body panels when they flip over. Maybe I can make my own monster truck and do flips and twists.

When I grow up

By Charles

When I grow up I want to be a NFL player. I can get lots of money! I do not have to think. I can be the fastest person in the world! If I win the Super Bowl I can get rings! My parents love to watch football. When I get to play in the NFL my parents can watch me. I love to play football! Before I go to the NFL I have to go thru the draft pick

When I grow up

By Mikey

I wut to beey a swat police officer beatclv I can drive a swat cor. I want to be a swat police officer be because I can make miy. I can arrest people. I can help rescue people. I can shoot.

When I grow up

By Hadley

I will be a cheerleader because I like their outfit. Their outfit is so adorable. I know some cheer because Huxlee showed me some cheer. All the cheerleaders showed me almost all the cheer. Cheering is so much fun. I know a lot about cheer. Cheer is so cool. I now cheer because I watched cheerleaders do their cheer.

When I grow up

By Kaylee

When I grow up I want to be a professional softball player. I love softball so much. The reeson I want to be a professional softball player is I want to meet new people. I want to work hard. It will be fun. I will make new friends. I want to help other people get better.

When I grow up

By Owen

I want to be a soccer coach because I know soccer. I want a soccer trophy. I want a chance to be able to know what it feels like to go to the FIFA WORLD CUP. I want to coach the USA team. I want to beat aregintina as a coach.

When I grow up

By Beckett

When I grow up I want to be a teacher to teach students. I want to teach them

math. I want to teach them the states. I want to read them books. I want to teach them about Jesus. I want to teach them the flags. I want to teach them the parts of the body.

When I grow up

By Lexi

When I grow up I want to work with killer whales because I have always been interested in marine life. Killer whales are my favorite animal. I would be at sea world. I will train killer whales to do stunts. Killer whales never meant to harm people. Another name for a killer whale is an orca. These are some cool facts all about orcas.

1. For the first 6 months an orca is alive its skin is yellow.

2. A male orcas dorsal fin is 6 feet tall. A female orcas is only 3 feet tall.

3. Orcas love being dabbled at. Etspeshley on their tung.

### FIFTH GRADE

TEACHER: JEREMY DUNN

OneAmerica

By Andrew Wiese

Did you know that OneAmerica employs around 1,500 people in Indianapolis? The home office is in Indianapolis and their building is the second tallest in the downtown area. When I grow up, I want to work at OneAmerica because they care about children, they have a lot of career options, and they care about the community.

Making sure children are money-wise is a big priority of OneAmerica. They sponsor the Junior Achievement program, or BizTown, to help kids learn about different jobs, how cities work, and how to manage their money. A big goal of the company is to help kids, teenagers, and college students to understand how their money decisions now can impact their money later in their life.

More than 100 different careers are available at OneAmerica. As a company, they help people plan for retirement, and sell life insurance to help protect families in case of someone dying. They need lots of different workers to do this well. Some people sell the insurance, some help pay out the life insurance money, and some help with the computer systems. There are employees who help figure out how much to charge for the insurance products. I like math, coding, computers, and figuring out problems. I think there would be a lot of possible job options for me here.

OneAmerica is the title sponsor of the largest half marathon in the United States. They also help with the parade and the Indianapolis 500 celebration in the month of May. This year, they helped sponsor the Olympic swimming trials and are bringing them to Indianapolis. They will build a pool

in Lucas Oil Stadium to be able to hold more people than ever before to watch the trials.

OneAmerica is a great company because it helps people have enough money for unexpected events and to be able to retire. They care about kids and the community I live in. I could find lots of good career options there and that is why I want to work at OneAmerica.

Healthcare as a Career

By Katelyn Dingus

Why is the field of healthcare among the most popular fields of study? Studies show that healthcare services are on the rise. More than 16 million people worked in the healthcare sector at the end of 2018, accounting for almost 11% of all jobs. In 2018, healthcare surpassed nearly every other major sector of the economy in job growth.

When I grow up I would like to enter the healthcare field because there are many career opportunities. There are three areas I would like to learn more about. These three areas are nursing, radiology, and being a doctor.

The first career option I could choose to become is a nurse. When you go to the doctor a nurse is usually your first contact before you see a doctor. Nurses can take your temperature, give you shots, draw blood, and also start IV's. Nurses can work in a doctor's office that specializes in children, adults, or elderly. Nurses can also work in a hospital where they can work alongside doctors and other healthcare professionals. Some of the things nurses do on a typical day are: conduct physical exams, listen to patients and analyze their physical and emotional needs, and coordinate care with other health care providers and specialists.

Another career option I could choose is to become a radiologist. When I hurt my ankle I went for x-rays and saw a radiologist. Radiologists can perform X-rays, MRI's, and CT scans. A trained radiologist can diagnose conditions based on the pictures captured. You would have to go to school and study the human body including understanding the tissues, bones, and muscles. Radiologists are paid very well but also require a lot of schooling. Some of the daily tasks that a radiologist might encounter is seeing a variety of patients with injuries or illnesses. These patients can range from being very sick to being healthy. Entering the field of radiology would be an exciting career option.

Finally, a career as a doctor would allow me to specialize in many different types of medicine. There are many different specialties to choose from. The many benefits of becoming a doctor would be that you would be able to help people feel well, you would be in charge of a lot of people, and

you can earn a lot of money. Becoming a doctor would require a lot of schooling but the benefits would outweigh the hard work.

In conclusion, health care provides many opportunities to start your career. It has many flexible options and provides stability. I would like to learn more about becoming a nurse, a radiologist, or a doctor.

Being a Veterinarian

By Avery Clements

Did you know that not all vets practice veterinary medicine? When I grow up I want to be a veterinarian. My reasons are that I love animals, I can save pets loved by their families, and learn about different animals. Another reason why I want to be a vet is so I can teach children about how to properly care for their pets.

My first reason is that I love animals. As a veterinarian, I would get to see a lot of animals. I really love animals so being around them would really cheer me up and make me feel so happy. People say the best job is doing something you love, so for me - that would be becoming a veterinarian.

My second reason is saving pets loved by their families. By that, I mean being able to help save the life of an animal that is a loved and adored pet for someone or some family. That would really really make me feel accomplished. I would get to see a lot of different scenarios and then I would get to know how to deal with the problem. I know there will be very sad moments of being a veterinarian. I can tell that this job is really hard already but it will definitely be worth the time, and very gratifying as well.

Finally, a big part of being a veterinarian means learning about different animals. I would get to see and learn about different animals like dogs, cats, rabbits, snakes, and so much more. It is so important that a veterinarian learns what and how much to feed an animal. If you feed an animal the wrong food things could end very badly. It is also important that a veterinarian gives the right medication (if they learn meds). Once I know the right foods and medicines for different animals, I can not only treat them, but also teach their owners how to care for them the best ways. Those Reasons why I want to become a veterinarian.

What I Want to be When I Grow Up.

By Vivian Hoffmann

This is a fact that really inspired me to want to become a teacher because I love helping people. And this is a really cool way to show helpfulness. Did you know that Anne Sullivan used the finger-spelling method to teach Helen how to communicate?

First of all, I love kids. Being a teacher means spending time with people younger than you. And you are learning from them like they are learning from you. Also, when working with kids or people younger than you. You get to watch them grow up, build friendships, and can get lots of love from them.

Next, I love learning new things and telling people about what I have learned. Teaching is a job that takes a lot of learning to do. And you get to share things you have learned all throughout your life. Next, when teaching you talk a lot and I love talking. It involves a lot of communication. And it is fun to be a part of a conversation. You get to talk to people about school and what you know. Lastly, you get a lot of opportunities to learn and to teach. It is not all the time you get to learn something new. And you can learn things about your students that can help you teach to the best of your ability.

Lastly, I love helping people. First of all, being a teacher means you get to help people learn and grow a lot. And people always say that helping people is my strength and God was the one who gave me that gift. Also, when I help people I am serving God and that is the best part of being a teacher. And research indicates that those who consistently help other people experience less depression, greater calm, fewer pains and better health. Consider some recent research: Students who performed five acts of kindness a day increased their happiness. And you can't teach without helping because when you teach you help people learn. Finally, I feel like Jesus just called me to do this. The reason I feel this way is because helping people is my strength and I can honor God by doing this.

In conclusion, I would like to be a teacher when I grow up because I love being with kids, I love learning new things and telling people about what I learned, and I love helping people. And that is why I want to be a teacher when I grow up.

What I want to be when I grow up.

By Landon Knafel

Did you know some engineers created the snowboard? When I grow up I want to be an engineer because it's fun, I can make a good amount of money, and I can help people by being an engineer by making things they want.

First of all, I want to be an engineer because it's fun. When I was little, to this day, I played legos and built very cool things and I had an awesome time. When it was New Years I figured out how to reload a party popper and had fun launching little lego pieces. Most engineers enjoy their job as an engineer.

Second of all, engineers can make lots of money. If I got lots of money I would

help the churches, charities, and of course my family. Most of the richest people studied engineering. With my money I will also donate 10% of my money each year to the churches. Even if I don't make a lot of money I will still be grateful for what I get. I will also donate to the poor with my money I earn.

Last of all, being an engineer I can help lots of people by creating something everybody wants. By being an engineer you create things or help create things. So if I were an engineer I would make things people would want. Example, I had an idea of a credit card with a touch screen that has all your credit cards on one card, of course to use the touch screen you need a 8 digit code to use a credit card on it, but if somebody steals it and somehow gets the password then you know. I will have a website that manages the credit card and it will have a button to email me to ask me for ideas for any build or a different design or addons to the credit card.

In conclusion, this is why I want to be an engineer, it's fun, I can make a good amount of money, and I can help people by being an engineer by making things they want. I've always loved making things, engineering fits that.

What I Want to Be When I Grow up.

By Stella Reed

Colin Powell once said, "There are no secrets to success. It is the result of preparation, hard work, and learning from failure." When I grow up I want to be a business owner! I want to be a business owner because I really love doing math, I don't like being bored, and I like to donate!

To begin with, I really enjoy math. If I had my own business I would need to calculate sales, profit, how much I would need to pay my workers, etc. I also love math challenges and think owning a business will bring an abundance of those! Another thing is that if I need to estimate things I would use math to figure that out and make an educated guess. Math is one of my favorite things to do, and I would get to do it a lot if I had a business!

Secondly, I loathe being bored. If I had a business it would definitely keep me preoccupied. I would be answering emails, hiring people, thinking of ways to make it better, and much more! There are also a lot of things I will always have the option to do, but I don't have to do at that specific moment in time. I would always have something to keep me busy and I would love that!

Finally, I love to donate! I could do so much good if I had my own business. I could donate to churches, charities, christian organizations, etc. I would be the one in control of the money so I could donate as much as I felt like! I could do fundraisers inside my business and earn

money to make donations. Hebrews 16:13 states, "Do not neglect to do good and to share what you have, for such sacrifices are pleasing to God."

Overall owning a business would be super cool! I would get to do a ton of math, I would always be busy, and I would get to do so much good! What do you want to do when you grow up?

What do I want to be when I grow up?

By Lori McGee

When I grow up, I want to be a jeweler because it is interesting, there is a family business with it, and I enjoy it.

One reason I want to be a jeweler is that it is very interesting. I have watched and felt that being a jeweler is what I am meant to do in life. I will continue to observe and learn so that I can make my dream a reality someday.

My grandfather, Bob McGee, owns McGee and Company Fine Jewelers. For years, I have helped around the store and done small tasks. I love the watch selection that they own, and hope to get one when I am old enough. The employees are very kind, and I love to talk to them. I visit the store almost every day and have grown to love spending time there. My grandfather is retiring soon, but my father and aunt are taking over. Someday, my brother and I will buy it and continue the family business.

I can be officially employed at the store when I'm 15 years old. I will work and do what I can. My father has recently taught me how to change watch batteries, and will soon teach me how to clean jewelry efficiently and more. He will also soon teach me how to enter jewelry into the system. I admire the work that he does, and I hope I can be as good at the job as he is.

In conclusion, I want to be a jeweler when I grow up because we own a family business, I find it fascinating, and I enjoy it more than anything else.

What I Want to be When I Grow Up

By Andrew Stock

Lionel Messi once said, "I start early and I stay late, day after day after day, year after year. It took me 17 years and 114 days to become an overnight soccer success." When I grow up I want to be a professional soccer player because I love to play soccer, you can get a lot of exercise, and you make loads of money.

First of all, I love to play soccer. I have been playing soccer since I could remember. I also just really enjoy the feeling of having a soccer ball at your feet, dribbling, passing, and most of all scoring. I also don't just love playing it, I also love practicing it.

Second, you can really get a lot of exercise just by playing or practicing it. One of

the main reasons that I love to play soccer is because of the exercise. I have played soccer at all times of the year mostly for exercise. Stuff that I do for exercising is running, stretching and also just the basic exercises such as pushups, pullups, jumping jacks and sit ups. I also don't eat as much as I do during off season which really helps me not get cramps mid-game. Also I never bring other drinks besides water such as gatorade or really any of those other sports drinks, because they may feel good at the moment but once you get out onto the field it is not as good.

Finally, anyone can make as much money as they really want. As a soccer player you can make a lot of money, to use to do good for the world. Stuff that I could do with the money could be, opening food pantries, starting charities, and more. I could also help the poor and help the churches that need the money more than I do.

In conclusion I want to be a professional soccer player because I love to play soccer, I get a lot of exercise, and I also get a lot of money. Cristiano Ronaldo once said, "Dreams are not the things you see in your sleep, but dreams are the things that don't let you sleep."

What I Want to Be When I Grow Up!

By Landon Clements

You may have heard Thomas Keller once say, "A recipe has no soul. You, as the cook, must bring soul to the recipe." This statement is true. I want to be a chef when I grow up because I like helping others, you get good money, and better body health. Those were the basic categories, but keep reading to find out more detail on these topics.

First of all, I love helping others. Seeing people enjoy the food that I cook would make me feel good. I could also assure people to help them have the best meal possible. I would treat everyone equally. Even if they are ungrateful or stubborn. If I was a chef, I would be kind to all people. That was just one out of three reasons I want to be a chef, so read on to find out more.

Secondly, you get paid good money as a chef. With said money, I could donate a lot to a good cause such as a church, or buy new equipment for myself or employees. If anyone in my family needs me to, I can give them some money. If I see someone that's homeless, I can give them money. The Bible states that you should treat your neighbor as yourself. With all of this, I would be giving back to God's kingdom. Don't leave yet, I still have one more cool topic to touch.

Lastly, I could increase my body health. I could cook healthy meals for myself once I know more about it. I could also use the healthiest of every ingredient to

make a normal meal, healthy. I don't know about you, but when I have a good meal, I feel better and energized.

In conclusion, I want to be a chef because I could help others, get good money and be wise with it, and increase my body health. Now that you know about being a chef, you can try it out. Thank you for your time.

I Want To Be This!?

By Sydney Lantz

Did you know it takes around 475 hours to write a novel? A novel has around 90,000 words, which is 189 words an hour. When I grow up, I want to be an author and write books. I've been writing a few minor books for quite some time (specifically since last year) and I love and have loved doing it. Now, you may ask yourself, why do I want to be this? I have written out some of the reasons why I want to be an author.

First of all, writing books is good for the brain. It is not just putting some words on a paper as some people think it is. For me, it is a way to help my mood improve. Happier moods are very good for the brain. Writing is also relaxing for me in stressful situations. This is also good for the brain, as it helps decompress or brain dump. I don't try to overthink it, though. Writing isn't meant to be overthought. Guess what else writing can do? It can cure boredom!

Writing also embraces my creativity. As someone who is the opposite of that one creative kid in your class, writing stories has helped embrace my creativity. Having to think of story ideas, make up characters and plots, etc., has really helped and will help because you have to generate these kinds of things in your mind. If I were to write stories everyday for a time, it would help me create more creative ideas to add to my stories.

Lastly, being an author would give me more opportunities to tell other people about God and his Word. This is probably my top reason for wanting to be an author. I would love to educate other people of God's Word and the gospel through story and glorify God. As a Christian, I would absolutely enjoy doing my part and telling people about God's story who may not know about him. If I were to be an author it would give me more and more opportunities to do this as I would write more and more books. As Psalm 71:15 says, "My mouth will tell of your righteous deeds, of your saving acts all day long-- though I know not how to relate them all."

These are the reasons why I want to be an author. It is good for the brain, it embraces my creativity, and it gives me more opportunities to tell other people about God. Of course there are many more reasons why I would like to be an author, but these are only three.

Being a Professional Soccer Player  
By AJ Curlee

Did you know that the Chinese created soccer in the third century B.C? When I grow up I want to be a professional soccer player because I'll stay in shape, I have great love for the game, and I could use my money wisely. I also believe that God has put me on this path since I was two years old and he has given me a gift of soccer so I am not going to waste that gift I will train as hard as I have to, to become a professional soccer player.

Someone once said, "To keep the body in good health is a duty, otherwise we shall not be able to keep our mind strong and clear." Soccer will allow me to become strong . I'll build stamina, strength, and lose fat. I will also become more flexible. If I stay in shape I will be able to stay alive longer and preach the gospel more as well.

Pele, one of the best soccer players ever once said " success is no accident. It is hard work, perseverance, learning, studying, sacrifice, and most of all, love of what you are doing." My love for the game is strong, so it will make me want to play soccer more because I love it. I also love being in that environment because it will make me a better soccer player in general. That also comes with a great challenge.

I'll be able to use my money wisely. I can live a great life by helping my family, providing for my kids, and being able to eat. I would not use all the money though, because I would donate to charity and to the homeless as well. I could also have huge birthday or super bowl parties with a ton of people at once. Because the ones with money should use it wisely and share with the ones that don't have money.

In conclusion, when I grow up I want to be a professional soccer player because I'll stay in shape, I love the game so much, and I could use my money wisely. Those are all of my reasons why I want to be a professional soccer player when I grow up.

When I'm Older...

By Jack Hunter

Did you know that Kylian Mbappe has scored 259 goals in his career? I want to be just like my role model Kylian Mbappe. When I grow up, I want to be a professional soccer player because I can make lots of money, I can form a bond, and I can do what I love!

First, I want to be a professional soccer player because I can make lots of money. Professional soccer players can make from \$49k-\$59k per year. If I make this money, I will give back to those who gave back to me. This would include my family, the community, the church, charities, and more! I feel that God is calling me to give to those who don't have much.

Second, I want to be a professional soccer player because I can form a bond. I would really like to play for Paris Saint Germain, even though I'm not French. I think it is a great club and the people there are really great! I could form a bond with my team and we would have a lot of fun together. We could have great chemistry and try to work our way to the Premier League championship! I will make more friends and will support my teammates on and off the field. We would train and train, and do our best.

Lastly, I want to be a professional soccer player because I get to do what I love. It has always been my dream to be a professional soccer player because I love it! I have played soccer all my life and have been training for it ever since I was 2 years old. I would always go play with my friends and we would do the best we could to train and get better and better. It would be so cool and awesome to be in the big leagues!

In conclusion, I want to be a professional soccer player because I can make lots of money, I can form a bond, and I can do what I love. I love soccer and I want to go pro! Thank you for reading.

When Im Older

By Zavien Green

Did you know in the late 1800s rubber-soled shoes became known as "sneaks" because the sole made the shoes quiet and noiseless. I would like to be a shoe designer because I can make a lot of money. I can make a lot of this money by working on shoes I'm assigned to work on. Being able to want to be a shoe designer is fun because I get to make cool shoes people have never seen before

.It is also fun because I get to choose the designs on the shoes I work on. When you are a shoe designer you would have to know how to sew and dye cloth. I need to know that because if you don't know how to sew parts of the shoe on and then you do not know what you are doing. An important skill of being a shoe designer is having a good sense of style. A good sense of style about being a shoe designer is when you would design shoes and make them look nice. When you are a shoe designer you would make the shoes look nice because if you don't no one will really buy the shoes you make or design. As a shoe designer you would need to make the shoes the people tell you to make. When you are a shoe designer you need to really know how to design shoes and color the shoes. Working as a shoe designer seems really fun because I like to make things and I really like shoes. I would like to be a shoe designer because there are so many cool shoes other shoe designers make and I want to experience what it is like to be a shoe designer.

I would also like to be a shoe designer because a shoe designer can also make shoes for famous people and athletes for sports too. As a shoe designer you can also make soccer cleats and football cleats as a shoe designer. A shoe designer can do many things to make shoes and cleats for sports or running shoes. As a shoe designer you can also teach other people how to design shoes.

What I Want to Be When I Grow Up.

By Kylee St. John

"Alone we can do so little, together we can do so much " -Helen Keller. When I grow up I want to play basketball due to the fact that I take delight in staying in shape, I don't want to work in a job where I am always sitting and not getting enough exercise, and I like to work in a team instead of working individually.

I enjoy staying in shape, and I know sports can be a good way to keep that goal going. Basketball provides many physical and mental health bonuses that can help me stay healthy. I adore staying in shape and think that these benefits would help me in staying fit and keeping myself very active. I always try to continue to show perseverance when I am in a sport because I can have the benefit of the reward, no matter if we win or lose the game.

Second of all, I don't want to do a job where I just sit down and type on a computer for hours. I wouldn't want to answer phones either, in view of the fact that it can get quite boring after a while. I'd like to be up and running and having more delight in what I am doing. I am not the best at staying still for long periods of time, this is why basketball is beneficial. Then I can get some exercise and have fun at the same time.

Lastly, I like to work in a team instead of individually. I think working in a team helps you achieve more than what you would if you were all alone trying to achieve them. I'd rather be on a team than have to face something alone. You have to take into consideration that you wouldn't want to climb a mountain alone or face a bear on your own. You need a team to accomplish stuff that you just might not be able to achieve by your lone self. Sometimes you have to be less prideful and accept the help. I would prefer to be on a team than independently working toward doing something.

In conclusion, when I grow up I'd like to be a basketball player due to those reasons that I have stated. What is your dream career?

This Is What I See Myself as When I Grow Up

By Cyrus Adeyemi

Did you know another name for a robot

is manipulator? And the first digitally operated and programmable robot was invented by George Devol in 1954. It was called the Unimate. I know this is not a common job (as many want to be an artist, a teacher, an athlete, etc), but when I grow up, all I want to be is a robotics engineer. My first reason is that it launches creativity. All it takes is an idea! Creating a robot is not just connecting wires to see what you get, you need a vision. Robotics engineering makes room for a full creative cycle. You can identify problems, design solutions, physically create designs and modify your designs as you go. It might take a while, but once you have an idea, it is time to bring your idea to reality. Some ways to do that are writing down your ideas, organizing them, staying open to other ideas, scheduling them, and not overcomplicating things. I would also find a way to glorify God while creating robots. One way to do that is to always remember that it is the Lord who gives all engineers a mind to learn from His creation, to gain knowledge necessary to design and manufacture products to benefit the rest of His creation. That means to always remember that it is God who blessed the engineers with a mind to learn. Whatever I create, I will find a way to use my creativity to benefit God's creation.

Lastly, I am aware of the fact that I will have to go through a lot of trials and errors, on my way to becoming a robotics engineer. It's like how some Lego™ sets are so hard to put together, they make you want to give up! For the sake of my future career, I will follow my dreams and never give up!

What I Want To Be When I Grow Up

By Benjamin Branch

"There might be people who have more talent than you, but there's no excuse for anyone to work harder than you do."- Derek Jeter.

When I grow up I want to play professional baseball for the New York Yankees as the shortstop. First, one reason I would like to play for the New York Yankees is because I've always loved the New York Yankees and grown up with them. Next, is that my family would love to watch me play on the New York Yankees because they love The New York Yankees. Next, I would love to play on the New York Yankees because I've always loved the Yankees.

Second, Another reason I would love to play for the New York Yankees is because the New York Yankees value is \$5 billion dollars which then they will pay me a lot of money. Next, If I do get paid a lot of money then I could give to my family and the poor. Next, I could play very well on a really good team since I'm good at baseball for my family.

Third, the last reason I would love to play for the New York Yankees is because I feel that God is just calling me and telling me to do this right now. Next, The Lord is calling me to this so I would love to do this when I grow up. Next, If I do get to (MLB) Major League Baseball then God would love it if I gave it to the poor.

Finally, When I grow up I want to play professional baseball for the New York Yankees because I've always loved the New York Yankees like my family. I could give a lot to the people who need it, and God is just moving me to do this.

What I want to be when I grow up

By Luke Bray

Did you know that F1 Drivers make the most money out of all the different race car events in the world? When I grow up I want to be an F1 Driver. First of all, you make a lot of money. You make anywhere from \$750,000 - 40,000,000 a year. You make around 5-10 million per race depending what place you got in that race. If you win a race you might be able to give your opponent some of the money. I can also give the money to people that are doing fine in life but just give it to them as a gift.

Second, you can help people with the money you get. You Can inspire people to be an

F1 Driver too and maybe donate to them so they maybe become one someday. You can use the money to help people that are either poor or sick or just need help mentally and physically. You can maybe open a hospital for sick people too.

Lastly, you might get to drive in the Indy 500. The indy 500 is incredible to watch but driving in it would be even better than just watching it. You would get a chance to win the indy 500 and get a lot of money to help the poor and sick people. If you win you can also give the money to the people who got you there and fed you and encouraged you to be an F1 Driver. Also If I make a lot of money I will donate 10% of all my earnings to churches, retirement homes, and charities.

In conclusion, I want to be an F1 Driver because you make a lot of money, you can help people with the money you get, and you might get to drive in the Indy 500. That is why I want to be an F1 Driver just like the other F1 legends like Mario Andretti.

What I Want to Be When I Grow Up

By Myla Adams

Did you know that all veterinarians in the U.S. have to make an oath called, "The Veterinarian's Oath," which swears they'll use their knowledge and skills for the benefit of animals? When I grow up, I want to be a veterinarian because I love animals, I get to save animals' lives and

make their owners happy, and I get to practice problem solving skills.

First, I love animals. Being around animals can lower your stress, which would be good if I was working with them everyday. I find it interesting to pay attention to the behaviors of an animal, and what might be causing them to act that way, which is one of the reasons I love animals and want to become a veterinarian. I also want to be a veterinarian because I love animals so much, so it would be very enjoyable to spend most of my day with them.

Next, I would have a chance to save animals' lives and make their owners happy. It makes me jubilant to see people get excited about their pet being happy and healthy. It makes me upset seeing animals hurt, so I would love to help and save them. Animals are part of God's creation, and I want to help God's creations because that's what he wants us to do, to take care of the animals he created and treat his creations well.

Finally, I get to practice problem solving skills. Problem solving can come in handy with many things, so that would be a big benefit. If I have problem solving skills, I would have a better chance to have a successful career, especially if I ever decided to do multiple jobs. Having problem solving skills helps you have logic, creativity, imagination, and determination. All of these skills would be very helpful and useful.

In conclusion, I want to be a veterinarian because I love animals, I would have a chance to save their lives and make their owners happy, and finally because I would get to practice problem solving skills. Those are the reasons I want to become a veterinarian when I grow up.

What I Want to be When I Grow Up

By Caleb Doyle

When I grow up, I want to be an architectural designer. Leonardo da Vinci once said "Beauty perishes in life, but is immortal in art." I can build art that is immortal and use that chance to give the glory to God in what I build. I want to be an architectural designer because I like to design places or homes. I could become famous, and I could get a good paycheck. For all of these reasons, I could give the glory to God.

First, as an architectural designer, I get to design places for other people to live. Next, I can design my own house to live in. If I decide to design or build my house on my own, I can make it just the way I want it to be with no errors. Also, I can design or build my house where God calls me to live.

Secondly, I can become famous by making a certain place, stadium, museum, etc. If I become famous, I should

give God the glory instead of putting the glory on myself. Then, most likely if I make a popular place and get mentioned, I can tell others that God gave me the gift of being an architectural designer. Next, once people know that I can design well, people can personally have me design their house or their business building.

Lastly, I am looking for a good paycheck. I can make around \$80,000.00 depending on where I work as a designer. I could use that money to donate to charity and the church. If you work in New York you can make \$74,052.00 in a year, but if you work in Indiana you get paid around \$60,000.00 a year. Also, I could give 10 % of my money to the church and 5% to charity. Finally, I could invest my money so I have more to donate, pay for groceries, and pay for taxes.

These are my three reasons why I want to be an architectural designer. I get to build places and homes, I could become famous, and I could get a good paycheck. If I am wise with the talents God has given me, I could give the glory to God through all that I do. This is why I want to be an architectural designer when I grow up.

The Premier League

By Noah Iliff

When I grow up I want to play in the Premier League, on team U.S. Did you know, soccer is played by 250 million players in over 200 countries, making it the world's most popular sport? I have been playing soccer for a long time, 7 years to be exact. It would be a miracle if I made it to the Premier League. First, playing professional soccer would benefit me in a lot of ways. For example, overtime it increases your strength, builds up your flexibility, and your endurance. Also, it increases bone and muscle density and strength, which is really important to have. In addition to this, I can eat a healthy diet and occasionally fast for the Lord as it says in the Bible.

Second, I would make a lot of money. An average Premier League player makes £60,000 which converts to \$73,911.90 per week. This would be a serious investment for me, I would be making a really good amount of money which would deal with any finances, and I would be getting a lot of exercise at the same time. Now, I wouldn't keep all this money to myself because that would be very selfish and ungodly, so I would give back to the churches, charities, even the homeless because they need it more than I do. Third, I am confident that I can make it to the Premier League one day. Every single person has a reason to keep moving on. Playing soccer is one way I can glorify God and what he has given me. When I try my best and put all my effort into soccer it is Glorifying God, cause I am

fearfully and wonderfully made in his image. In conclusion, I hope I have made it clear why I want to play professional soccer when I grow up, and why this would benefit me in a lot of ways!!! It is a blessing to even have this talent to play soccer, so playing it in a professional League would be incredible!!! This is why I want to be a Premier League player when I grow up.

Professional Athlete

By Aaron Nichols

Did you know that Kobe Bryant was the first NBA guard to be drafted straight out of high school? When I grow up I hope to become Professional Athlete because I get famous, I get a lot of money, and I get good at the sport. When I get famous I will make myself known and say positive words. I can get in the Hall of Fame in sports. You can meet other famous people, even maybe the president. When I get famous, some people will make jerseys, books, magazines, and hats. When I get famous, I will set a plan for myself. When I get a lot of money I will help people and my family. I can get what I want and make people happy. I can give to shelters and people who don't have a lot of money. I can make millions of dollars, and get billions of dollars one day. I could be the world's richest sports player. I will travel around the world with my money. If I get good at the sport I can start to train people so they can become better. When I get good I can go up in ranks in sports. When you're good at a sport, you are in good health. When I get good at a sport, you learn to have teamwork, sportsmanship, and leadership. I can encourage others and make them feel happy. When I get good at a sport, you learn to have teamwork, sportsmanship, and leadership. When I grow up I hope to become a Professional Athlete because I get famous, I get a lot of money, and I get good at the sport.

Why I Want to be an Interior Designer

By Brynn Smith

Did you know that interior designers are some of the most creative people ever? When I grow up I want to be an interior designer. I want to be an interior designer because I make people happy, I like organizing things, and I like to design stuff. I hope you enjoy my reasons why I want to be an interior designer when I grow up.

First of all, I want to make people happy because I want people to feel like they are in a whole new place. And I also want people to love their newly designed homes. Also I want people to feel like they can start fresh in their newly designed home. And those are a couple reasons why I want to make people happy.

Secondly, I love organizing different

things because organizing makes me feel good. And I also love the fact that people will know where all of their things are when their stuff is organized. Also organizing helps me take my mind off things and helps me feel better. And those are my reasons why I like organizing.

Last of all, I like to design offices and homes because I like making things even prettier than they were before. Secondly, designing things helps me be creative. Last of all, designing things means I can make things as beautiful as I want to. And those are my reasons why I love designing homes.

And that is why I want to be an interior designer when I'm older because I get to make people happy with their new homes, I like to organize places so people will know where their stuff is, and I get to design houses and make them beautiful. Those are my reasons why I want to be an interior designer when I grow up. I hope this helps you see why I want to be an interior designer when I grow up.

#### Interior Designing

By Claire Ruoff

Did you know that interior designing has been a popular job for over 100 years? When I grow up I hope to become an interior designer. An interior designer is a person whose work involves designing the interior decoration of a room or building.

My first reason why I want to be an interior designer is because I am artistic. I am artistic because I have a very creative imagination, I love art, and I love to experiment with all the colors. Interior designing is all about art and creation.

My second reason why I want to be an interior designer is because I am good at designing. I am good at designing because I have good ideas, I am creative, and I am very organized. An interior designer has to be creative and organized with the design they are doing.

My last reason why I want to be an interior designer is because I am very good at working with others. I can work with others because I am patient, I am not selfish, and I will take time to listen to other people's opinions. Interior designing is not an independent job, in fact it actually requires a lot of team effort to get the job done.

In conclusion, I want to be an interior designer when I grow up because I am artistic, I am good at designing, and I can work with others.

#### God's Creation

By Nora Rogers

"The Bible tells us that God's hand is all over His creation." (Psalm 19:1-2; Acts 14:17; Romans 1:20) "The living world is a testament to God's creative action." (Job 38-41; Psalm 104). Making new

discoveries is exciting, because through them we look at previously unseen and often unexpected aspects of God. We are called to seek out the full glory of God in his creation. As Christians we are called to live in service to God and others, and science is an excellent way to do this. When I grow up, I want to be an animal and nature biologist. I want to be an animal and a nature biologist because I want to visit the whole world, I like to study animals and nature, and I love science.

I want to visit the whole world because there are so many beautiful landscapes that God created all over the world. I also love traveling to new places in the world, and there is always something new to explore in the world. Some of the places I want to visit are Big Ben in London, the Australian outback, Peyto Lake in Canada, and Hallstatt in Austria.

I like to study animals and nature because I think that animals and plants are fascinating. I also love to look at animals and plants that I've never seen before. I love looking at how creatures work in their natural habitat.

I love science because I like learning about how all things work together in the world. I also like studying to find out how things function, and I love looking at all kinds of new things.

Biological science is important in forming modern world views. "You are the light of the world. A city set on a hill cannot be hidden. Nor do people light a lamp and put it under a basket, but on a stand, and it gives light to all in the house. In the same way, let your light shine before others, so that they may see your good works and give glory to your Father who is in heaven." (Matthew 5:14-16). God needs Christians to be involved, able to speak clearly, and with conviction.

In conclusion, I want to be an animal and nature biologist because I want to visit the whole world someday, I love studying animals and nature, and I love science.

#### My Dream of Becoming a Hot Wheels Designer

By Elliott Goodman

Did you know the first hot wheel designer was Elliot Handle?. When I grow up I hope to be a hot wheel designer. My passion for becoming a hot wheel designer will be great. I would have a great passion for designing hot wheels, because if I enjoy collecting hot wheels I would love designing them. Another thing is if I enjoy collecting them I would enjoy being a hot wheel designer because I would design my own hot wheels and I would like to collect them. Next, my good passion would probably get me more convinced and would enjoy working better and possibly get paid even more.

The second reason I would like to become a hot wheel designer would be because of the good pay. You get paid \$22.00 per hour which is pretty good. With that good pay I could get 6 working hours on that same day and I would get \$three hundred-thirty-two dollars. Also, another reason why I would become a designer of hot wheels is because if I get good pay I would focus better and work better to get paid better, because I would not be focused on paying bills and saving money. Finally, the last reason I would be a hot wheel designer is because I am a big collector of hot wheels. And if I were a big hot wheel designer I would buy the hot wheels I designed which possibly eventually came out with, and that sounds like a good idea, right? I would collect those I design because it would make it different to my collection and change the quality and quantity. And also I have a twin brother, Emmitt and he also collects more than me and I would design hot wheels. Then, they possibly come out and he would buy them and appreciate the work of designing those hot wheels and appreciate me.

#### All About a Firefighter

By Esther Afterkirk

Did you know that the most people saved by a firefighter in one year was 1,041,200? The average number of people saved each year is 25,000. I want to be a firefighter because firefighters save people, they put themselves out there and they get to work with kids.

First they save a lot of people. Firefighters save people by saving them from a fire. Firefighters save people from accidents, burning cars, and from burning houses. Firefighter also save people from heart attacks and passing out.

Second, the Firefighters put themselves out there. Firefighters put themselves out there by helping in really really dangerous places. Another thing that firefighters put themselves out there is going into fires to save people. Firefighters also put themselves out there by driving fast to save people from dangerous places or fires. They do that in the rain, snow and a storm to save people.

Finally firefighters get work with kids. Firefighters get to work with kids by doing bootcamp. And in that bootcamp firefighters get to teach the kids that want to be firefighters when they are older. Another way that firefighters get to work with kids is. When fires happen they get to tell them that it is going to be okay. And they get to come and see and help them stay safe. Another way firefighters get to work with kids is by teaching them fire safety. Like how fire can be dangerous and can hurt you but you can stay safe. If there is a fire in your house you need to get out and

find a safe place to wait for your family away from the fire and then you and your family can get even farther away from the fire and you can be safe. If there is ever a fire on you need to stop drop and roll so the fire can burn out and you can stay safe.

And that is why I want to be a firefighter. Is because you get to save people, you get to put yourself out there, and you also get to work with kids.

What do I want to be when I grow up?

By Gwen Boyce

Did you know an WNBA player makes about \$102,751 per year among 151 athletes for an average player, but it also depends how good you are. You get a lot more money if you're better than some players. When I grow up I would love to be in the WNBA! I wanna be a WNBA player because it is good for your health, you can get a lot of money, and you can teach other people how to play!

The first reason I would like to be in the WNBA is that any sport like basketball can be good for your health. They can always keep you active and healthy. When you play basketball you have to eat healthy, a good WNBA player will always eat healthy to gain more strength. You can get stronger by always eating healthy!

My second reason is you can get a lot of money from playing basketball. When playing basketball, not only can you get famous, you can also get a lot of money from it. In the WNBA they usually get \$102,751 per year. That's just for the average WNBA player. If you are better you can get more money.

The final reason is that I can teach other people how to play basketball. Being a professional basketball player you get to teach people all around the world to play basketball. You can also be a good influence by teaching people how to play. People that don't know how to play basketball I can help them get better at basketball. Because that is my job.

My conclusion is that being a WNBA player would be an amazing job in my opinion! Having a job like this can be good for your health, fun, and you get a lot of money from it! All of these reasons explain why it would be an amazing job for a person like me who likes to play basketball!

Work as a farmer.

By Izzy Gast

Each American farmer produces food and fiber for 165 people each year! When I grow up I want to be a rancher plus a farmer. A farmer is someone who produces food for many people, 165 people a year to be exact. I know that I would be good at the job because I am responsible (most of the time), I am an animal lover,

and I like working ( also most of the time).

First I know I am responsible because I raised a baby bird and kept it alive his whole life. I am also responsible because I'll do my chores. Every farmer needs responsibility, because if they don't their animals might not get fed every day, or their crops won't be watered everyday so responsibility is important. You also have to be responsible with your money. Because if you aren't responsible with your money you'll go broke.

Second, I am an animal lover so I'll take care of the animals. Every farmer should love their animals because why in the world would you buy an animal if you aren't going to use it. You would also have to buy more food for nothing.

Third, I'll do all the work I can, unless it's gross, ( and I don't call mucking out a stall necessarily should be called gross). Every farmer can't be afraid to do their work. If they are then they shouldn't be a farmer because that's what farming is all about. And that is why I want to be a farmer ( plus a lot more reasons than just that).

#### Playing on the Biggest Stage

By Jacob Dunn

Did you know that the Boston Celtics won 8 NBA championships in a row? When I grow up, I hope to become a professional athlete because you make a lot of money, you could inspire people, and you would get a lot healthier.

Money is really important to help you survive and make your life easier. You could also donate to charities or help the homeless and help them with their lives to show other people love even if you don't know them and change their lives. You could also pay off debts for things like your car and your house so you don't have to worry about owing money.

It would be cool to help make people's dreams come true. I would also want to be a role model for little kids and teach about stuff like don't give up, and to not just encourage themselves but encourage everyone they see and if they see someone fall down, they would go help the person up. I would also use being a professional athlete to teach people about God and what it means to be a Christian.

Perhaps, being a professional athlete can improve your health and strength, which means you may live longer. Being healthy is said to also strengthen bones, which is really important because if you're a professional athlete you need to perform at a high level.

Being healthy also can lower risks of heart disease, type 2 diabetes, and some cancers. This can help you avoid dangerous injuries when you're younger and when you're older to help keep you and your body safe.

These are the reasons why I want to

be a professional athlete and I hope this inspires you to do what you love.

#### Why I Want to be a Cartoonist

By Kevin Fenton

Did you know that Art used to be an olympic event? There are three reasons why I want to be a cartoonist. First reason why I want to be a cartoonist is because I really like to draw. Drawing is one of my favorite hobbies and It really helps me relax. One of my favorite places to draw is our playroom. I sit down, turn on something to watch, grab a notebook and pencil, and start drawing. Now, you may be thinking, "Why does this kid watch tv and draw at the same time?" Well, It's because when I turn on a cartoon, I can get some drawing ideas or examples of how to draw.

I also want to be a cartoonist because I know how to animate. Well, not exactly, I still have much to learn about animating. I do have a pretty good idea of how to animate, but let me tell you. I'm awful at animating. I can't animate a simple animated character without his head or leg getting bigger or smaller. With enough practice though, I think I can get great at it real quick.

One last reason why I want to be a cartoonist is because of how interesting it is. I mean how can you not be interested? It is so interesting how one person can put so much detail in one piece of paper. It's so interesting how one second, you're drawing a simple drawing, and the next second, your drawing is hung up at a museum or on the big screens. It's so interesting how someone like you and me can improve so much. These are three reasons why I want to be a cartoonist.

#### McDonald's

By Leilani Moreno

Did you know that McDonald's makes over \$ 75,000,000 per day? When I grow up, I hope to become a McDonald's worker because I can help people, make new meals, and learn new stuff. First One way to help people is that if I were an Employee at McDonald's I would save up my money and give it to people in need. Second, another way I can help people is that if McDonald's ever has leftovers, I would give it to people on the streets and make sure it was safe to eat. Third, the way I could help someone is if I had a little extra money left I would give it to schools in need. First, working at McDonald's must be fun and making new friends too but another thing is making meals will be fun because you get to do experiments on foods. Second, making new meals means new drinks. I think that making drinks for new meals would be fun because you get to mix and match drinks and you even get to make slushies. Third, making new

meals means new sauces. I feel like this would also be fun because you can make some different sauces so more people that are picky can enjoy sauces . First working at McDonald's means you get to learn new stuff like customer service, and that would help because it teaches me how to become more social. Second, working at McDonald's means you get to learn new stuff like deep cleaning. This could help me because when I grow up cleaning your house is Important. Third, working at McDonald's means you can learn how to be nicer to people to make their day. And that is why I want to become a McDonald's worker because I can help people, make new meals and learn new stuff and make people's day.

#### Baking for America

By Lydia Vasquez

Did you know that the famous chocolate chip cookie was made by accident but has become one of Earth's most loved desserts! Bakers are most popular when they offer a more wide variety. When I grow up I want to be a baker because you can get creative with it, make delicious cookies and cakes and other treats for events like weddings and birthdays, and I can also do what I love to do!

First you can be as creative as you want with baking. You can make whatever treats you want. I found out that a lot of the reasons people open bakeries is because a bakery is a creative way to make money and express your sense of style through desserts and other things. For example you can make cookies, all types of cakes, and even donuts! You can decorate your treats however you want. You could even do a fun alien design. You can even make a business that could be popular world wide!

Next you can make desserts for events. You can make it on to baking shows possibly like The Great American Baking Show. You can make desserts that are for birthdays, weddings, baby showers, gender reveals, and even more. You don't know it could also be a really big event like maybe a festival or even a grand opening of an important place. If the event was a gender reveal or a wedding you could be making the most special dessert of their life!

Finally, I can do what I love to do. One thing that I love to do with my dad and my sister is to bake with them. A lot of people are having bad days today! One way that I like to help relieve stress from a bad day is to bake! Baking can help you relax. Baking is a stress reliever and is very beneficial for anxious people, so if you get anxious a lot then one way you can help relieve that stress and anxiety is by baking! Did you know that baking can engage your senses more and activate

fun activities.

In conclusion, when I grow up I want to be a baker because you can get creative with baking, you can make desserts for events, and you I can do something that I love.

#### Being a Nurse

By Marah Tremblett

Registered nurses make up about 2% of the total workforce in the United States!

When I grow up I want to be a nurse because I can help people, I can have enough money for my family, and because I can work with autistic kids or kids with ADHD. I would love to have a job where I can help kids.

I can help people because I know my parents are getting old and might need something so I can just drive from work every day and be there 10 minutes after work for them. I can also make food for them whenever they need it. I could also run to the store for them if they want it.

I can have enough money for a family if I am a nurse. For example, nurses get paid a lot, over \$31-\$59 for just one day. Also, if my family needs money, I will have enough money to lend or give them. I hope that I can be a registered nurse so I can get paid more.

I have always wanted to work with kids who have ADHD or autism. For example, my brother has ADHD and he needs help sometimes, he might not always want it but he will get it. I could also meet new people and kids. I also love working with kids who have AD-HD or autism, or any other issues. I have always wanted to do that because it seems fun and nice, and I don't think that there can ever be enough people working in a hospital. If I did work at a hospital, I would want to work at Indiana University Health Medical Center. You might not get paid a lot there, but could still work there and get paid at least \$10.

These are the reasons why I want to be a nurse/doctor. I can help people, I can have enough money for my family, I can work with kids who have ADHD or autism. I would love to be a nurse for many reasons, but these are the three main reasons why.

#### What I Want to be When I Grow Up

By Olivia Julien

Did you know that Starbucks employees get paid about \$15.31 an hour? That's a good price! I want to be a Starbucks employee because, Starbuck workers get paid good money even when they have sick days they can still get paid!! If you add up \$15.31 every hour for a year it can be up to \$35,807 dollars depending on what role you have! Helping people, At Starbucks you get the chance to meet new people every day! I think it would be

cool because then I will make new friends every day. And if they have problems you can help them or, if they just need someone to talk to. Making new drinks, At Starbucks every year there's a new drink! I love pink drinks and lots of other drinks at Starbucks and I know my friends do too, so why not make my own drink every day at Starbucks. And a cool thing is that the employees and customers get to help think up ideas for new drinks for the new year and their drink idea might be picked! These are the reasons why I want to be a Starbucks employee.

#### NBA Player

By Sam Harder

Did you know Bill Russell has the most rings in the NBA with a total of 11?

When I grow up I want to become an NBA Player because Basketball is a good sport to play. I think it would be fun to give out autographs to fans and you earn a lot of money. Basketball is a very fast and exciting pace of play during games and each player on the court gets to play both offense and defense and have the chance to steal the ball or make a bucket. My second reason I want to play in the NBA when I grow up is. I think it would be fun to give out autographs to fans because when you give out an autograph that would make that fan happy for the rest of the night. It would also be cool because you get to sign peoples autographs that look up to you which I think that's cool. My third reason why I want to play in the NBA. You earn a lot of money. The average NBA player makes around \$4,347,600 so if you're pretty good, you can make a lot you can either make more or less depending on what team you play for. More than 10 NBA players make more than 40 million dollars which is a crazy amount of money compared to the average human job. In conclusion, I really hope to become a professional basketball player when I grow up because basketball is a good sport to play. I think it would be fun to give out autographs to fans and you earn a lot of money.

#### All About Athletes

By Sam Naikelis

"When I came up, I was just ready to swing. Now, I'm ready to swing, but with a plan." Javier Baez, New York Mets, Chicago Cubs. When I grow up, I hope to become an athlete because athletes get paid a lot of money, they get famous faster, and a lot of athletes spend time outside.

First, the average athlete makes about \$40,000 to \$61,500 a year. Also, basketball is the highest paid sport in the world. Another fact is, the lowest paid male professional basketball player in America makes roughly \$100,000 more in

a year than the president. It costs about \$5,600,000 to make enough baseballs for a player to use in a season.

Secondly, Muhamad Ali is the most famed sportsperson of all time, winning boxing tournaments such as, "Thrilla in Manila" and "Rumble in the Jungle". Nascar is the second-most watched sport in the USA, with American football coming in first. The Super Bowl is currently the most watched event and has a viewership of over 100 million viewers. The first MLB Home Run Derby was held in 1960 as a TV show featuring Mickey Mantle, Hank Aaron, and Willie Mays. The original contest featured nine innings, with each batter allotted three outs per inning. An out was constituted as any swing of the bat that didn't result in a home run.

Lastly, soccer is the sport where most players spend their time outside. Another fact is, some people can run eight miles in one hour, which is a lot of time outside.

When I grow up, I want to be an athlete because athletes get paid a lot of money, get famous faster, and get to spend a lot of time outside.

#### Playing as a Professional Athlete

By Silas Thompson

Did you know that when Babe Ruth hit his 700th career home run he paid the person who caught it \$20? When I grow up I hope to be a professional athlete because I love sports, I would love to have fans, and being physical is very fun and healthy for you. Sports are fun for me especially when I'm playing with my friends. Sports are very entertaining, especially for me to watch and play. I am very competitive, especially in sports. I have always dreamed of being in the NFL watching my favorite stars win games in clutch much needed moments.

Sports lets you accomplish goals and win awards. Winning games gives you a lot of confidence which is the power you need to have fun and win games. If you have no confidence in yourself you will go into the game not trusting yourself and not believing in yourself.

Another reason I would love to be a professional athlete is to have fans. It would be fun to sign autographs for people. Also fans are usually very supportive. True fans will always motivate you to succeed. Even when you lose, fans will be there to support you by giving you hope to win the next time. A lot of people when their team loses they seem to maybe not like the team anymore. True fans will stay with their team whether a win or loss. Some teams have incredible fan bases like the Green Bay Packers or Kansas City Chiefs. They will go through a lot of ups and downs but they are always great fans. Especially when you need them to get loud and rowdy, they will be there.

The last reason I would love to be a professional athlete is because being physical is very fun and healthy. I would like to break records as an athlete. If you work your hardest and train hard you could very well succeed. Also, playing with my teammates more and more builds good chemistry. Just knowing how your teammates work and them knowing how you work establishes great team work. Being a professional athlete and accomplishing goals would make my family very proud of me. I have always told my family I wanted to be a professional athlete, and they said "If you work your hardest and practice a lot I could accomplish this thing I wanted." So I will continue to work my hardest and practice a lot to try to achieve this.

And that's why I know my fans and family will be there. Even if I am not able to do this, I still will know that I tried my absolute best.

#### My Dream Job

By Viraj Grewal

Did you know the first lawyer dates back to 1.m-1.5m years ago? When I grow up I hope to become a lawyer because I can help people out. I like the law, and I can make a lot of money. So if someone has been falsely accused I can help them to get out of trouble and sometimes a lawyer can be called a helper form some people who they help and save them from something that will happen. And there are so many lawyers that help people like family lawyers , crinmail lawyers, personal injury lawyers, and many others that help so many people in other ways too, not just like the criminal and family ones do, like some help with business, some help with bankruptcy lawyer they help in all kind of different ways.

I like the Law, I have always wanted to be a lawyer. It is my dream job to be a lawyer. And as a lawyer you can learn more about the law then some people but I also want to learn about the law a lot more. And with it can teach myself more about the law so I know what to do and I will now what to do if I become a lawyer and I need to help someone so I can help then the best way I can, and the type of lawyer I want to be is a criminal lawyer because I think it would be a good type of lawyer to be but it will take at least 7 years.

As a lawyer you can make over 100,000 a year and that is a lot. But you can make 1 million dollars but as most lawyer it would take up to 10 years to make 1 millions dollar because most lawyers get paid \$100,00 a year but also lawyers get paid more than others because some are more experience than others and have better experience than others and they have a better sense about that position then

others. So in collusion My Dream job to be when i grow up is to be a lawyer because I can help people, I like the law, and I can get a lot of money.

#### CHEER COACH

By Lainey Holt

When I grow up i want to be a cheer coach and here are my reasons, as you know i want to be a cheer coach my reason for that is first off i do cheer myself and i'm pretty good at it and i know the basics I also can keep people on task if i need to i got that skill from babysitting my baby sister and i also love others and would love to meet kids like me what i mean by that is they like cheer like me.

Another reason i would be good at coaching is I am an amazing stunter, i say that because last season i was lot of things like i was a front spot back spot and a base almost all spots except a flier but this season i am a front spot but its still not permanent yet and since i still know how two do all spots i can spot for someone if there not there if i was coach.

Another reason I would be a good coach is that i'm a good influence i know that because i kinda have to be for my sisters saick also if your gonna be a coach you gotta be an example for those kids future. It's basically up to you if those kids are gonna have fun and if they were gonna end up being a cheerleader for a living like you. And i LOVE kids too there so cute well little kids to be exact i like my kids my age but when i get older is what i meant. And that is why i would be good at coaching.

#### Working with animals

By Amiah Hines

I want to be a Veterinarian because I will get to help animals when they are sick or when they are hurt. I want to be able to help them feel better and I will get to learn a lot about animals and when I am out and I see a hurt animal I know how to help them. I also want to be a veterinarian because I like to help animals so they are not miserable and so they don't die.

Another reason I want to do this job is because I will know what kind of help they need and I will know what kind of medicine to give them that will not hurt their body and what kinds of medicine not to give them. I will know how to properly treat their sickness or hurtness without harming them.

The last reason I want to be a veterinarian is I will get to learn about what kinds of animals there are and I will learn how to handle them without hurting them or harming them mad or scared so that is why I want to be a veterinarian.

I want to know how to care for them. So that is why I want my job to be a veterinarian. Maybe you should think about

being a veterinarian.

And always know that God is watching you and that he loves you a lot and he will always love you know matter what you chose to do when you grow up. and he will not be mad at you for whatever you want to do when you grow up. all the little kids out there that don't know what to do just know that whatever you choose God will be happy for you.

No, the Father himself loves you because you have loved me and have believed that I came from God John 16:27.

If you are reading this and think well, how do I know If I want to do this you can maybe when you get to college you can do veterinarian school and if you don't like it you can leave and if you do like it you can stay. If you want to know sooner you can ask your parents to give you a time to go into the animal hospital and they can show you around. That is how you can find out if you want to be a veterinarian or not thank you for reading my story. God loves you always and forever I want you to always know that in your heart.

#### My Dream Career By Benjamin Dang

I want to become a mechanical Engineer because it includes Math, Science, and Power Tools. I want to be a mechanical engineer because it includes Math and I love math and most of the time math is one of my favorite hobbies. Science is also one of my favorite hobbies because it is fun to do experiments with science. Power tools are also a part of a favorite hobby, which is building stuff like a mini model of the golden gate bridge made out of wood.

My first reason is, Math is included in mechanical engineering including math like, Algebra, measurement, perimeter, area, and more. The reason why all this math is included is because, like if measurement was non-existent we would not be able to make cars look the way they do today. P.S. Mechanical Engineering includes a lot of math like, Algebra, measurement, perimeter, area, and more. Mechanical Engineering includes math because it helps you measure stuff and more.

My second reason is, Science is included in mechanical engineering and examples include, chain reactions, sparks, and more. My first example is called, chain reaction a chain reaction is when flint and steel hits each other they cause sparks and sparks are one of the fire starter types of science. The next two examples are, research in dynamics, and fluids. Research in dynamics is the provision of research coverage through equity research reports paid for by the issuer. Fluids in Science are any material that flows in response to an implied force,

therefore liquids and gasses are fluids. The last two are, solids and thermodynamics. Solids are a state of matter that retains shape and density when not confined. Thermodynamics is the study of the relationship between heat, work, temperature, and energy. My topic sentence for my reason is, because of thermodynamics, chain reactions, research in dynamics, fluids, and solids.

My third and final reason is that mechanical engineering is power tools. The power tools that are needed for mechanical engineering are: a 3D printer, a screwdriver, digital force gauge, ohmmeter, flow meter, graphing calculator, vibration isolator, and a caliper. These objects are needed for this career because they help you build and design stuff like cars, making chromebooks, phones, ipads, computers, printers, keyboards for computers, and more.

I am going to wrap up my story for the reader by telling him/her that my Dad used to be an engineer and on the other hand I want to become a mechanical engineer. Because, the career includes Math, science, power tools and more.

#### I want to be a vet when I grow up By Carter Middleton

When I grow up I want to be a vet. I love to help, when someone needs help I will help them, if someone is in danger I will help them, and if someone has a problem I will try to help them in whatever situation. Do you like to help? I love animals. One time I was bitten by a dog when I hugged it but I hugged it again. Sometimes animals don't like me but I like them, and if I could I would have every pet. Do you love animals? I would save animals from disaster, no matter what, some people abuse their animals. I stand against animal abuse. Sometimes during a flood lots of animals die from drowning or starvation, and some animals are burned to death in fire, some people will put their life at risk to save animals, animals are hit by cars and die. Would you save an animal from disaster? That's why I want to be a vet. Helping animals is my dream. I do not want them to suffer pain like us humans do. Do you want animals to suffer and die? Lots of animals die a year of not being cared for properly. What do you want to be when you grow up or what do you do as a job?

#### Police Officers By Eleyna Wendell

Did you know that police officers are good to have around because they move around a lot and do what they want and protect the city.

First, Police Officers partly do what they want. Police Officers protect the city and their family and friends. Police officers get

to drive around so they can make sure nothing bad is happening and they also get to have freedom and to also make sure nothing bad happens and they do not just want to sit around in an office all day. Police Officers get to join the SWAT team and the FBI team.

Next, Police Officers have to follow the law. Police Officers can do whatever they want but they have to listen to the law. Police Officers have to listen to a citizen that has something bad happening to them but they also have to listen to a citizen no matter what. Police Officers can also play their music as loud as they want.

Lastly, Police Officers get up and move around a lot. Police Officers do a lot of work and I like doing a lot of work. Police Officers can also just sit in their office until something bad happens. Police Officers love solving investigations and problems in the city and solving crimes.

Conclusion, I love this is why I want to be a Police Officer.

#### Wishes With Pre-School By Emma Kuzniar

Did you know that there are 391,670 pre-school teachers in the U.S.? I would like to be a preschool teacher when I grow up. This is why I think it would be great for me!

CHILDREN... I would love to go to school and teach and see the great magical preschoolers faces every morning. I would love to teach the the simplest things. I would work my absolute hardest for them no matter what. I would help them know right from wrong. I would do this by making sure that I am not being rude. By the way I have to say that there faces are the cutest thing ever!

GREAT WITH KIDS... I would love to help each kid in a different way. I would love all these different personalities. I would teach them about family and friends and how to love one another always and forever. I will never yell at a kid ever. Its okay to get angry but never take it out on them ever. If one single kid gets hurt I will always race over there and help them.

BIBLE... I would help them know the gospel I would try my hardest anyway. I would at least read one or two bible verses a day to them. I would 100% make sure that we would make our bible time fun with an activity. I would make sure that the children/kids 100% know for a fact that God loves them know matter what they do. And that you just half to have a relationship with Him. I would make the bible important to them every single day. I would pray with them all the time. As much as I can at least.

This is why I would like to teach preschoolers and why I think this would be awesome for me and the children. I would always pray to God the Lord our Savior to

see what He wants me to do. Remember to love God and to love others too! God loves you! God bless. Thank you!

#### Pediatric Nurse By Emma Lutz

Did you know that children around the world don't get enough care as they should? I want to help with that. When I grow up I want to be a Pediatric Nurse because I love children and caring for them. I also want to be a nurse because I love to help children in need so I hope I get to do that when I am older.

I want to work with children for my job because I love kids. I really want to be a nurse because I want to help children and I want to get them healthy again. I want to get to know them and help kids feel better because I like to play with younger kids all of the time.

Children get even more sick without the right care. And I want to help with that. When I get sick I don't feel great, so I want to help kids even when they might be more sick than I have ever been. Whenever I get sick I feel awful and I don't like it so I don't want others to suffer even more. I feel like it will be hard to watch others suffer but I want to help them as much as I can. Whoever I am working with, I want them to know that it will be okay and I will help them.

Lastly, When I work with kids I don't want to do it just because I need a job, I will do it to care for them. I love working with children because right now I hang out with my younger neighbors and cousins and it is fun. When they need help I will help them and I LOVE doing that. I love caring for others so for my job I want to help children in need. Whatever the child needs I want to help because I love caring for others and helping others. I know I have said it a lot, but that is because it is true!

In conclusion, I want to be a pediatric nurse because I love working with children, helping cure their illness, and caring for them. I hope I get to be a pediatric nurse for many reasons but those are my top three reasons. That is why I want to be a pediatric nurse so much.

#### I want to be a racer. By Emmitt Goodman

Did you now that almost everything on your car is derived from something originally developed from your car for a racing car? When I grow up I want become a race car driver because I like racing, It is entertaining, and makes a buch of money being a race car driver.

I like racing. I am into racing alot. Racing is my thing. Racing is one of my best and favorite hobbies to do in life. Racing seems like it takes a lot of effort to do. And I like challenging my self. Racing cars

have some competition in it. I like to compete with others. I like to do something to go really fast to prove to win against your opponents. Running or racing has a cool feeling in you self to do awesome thing.

It is entertaining. Racing is really amazing to do. It really gets me pumped up and energized. When I start to race I want to do it forever, over and over. Racing is so cool and I can not stop when I do it. Driving a race car makes you go really, really fast, like 250 miles per hour. It is super cool going super fast.

You make a lot of money. If you ever race in a race car you will get pretty rich. And that's a pretty good thing. Racing a race car makes \$ 19.79 an hour. So each year each year you earn a ton of money a total amount of about \$60,000. I you get or have this career/ job you will have a buch of cash. That's a good thing because you need money to pay your bills, pay for food, clothes, water, and a house. You can also use all the money you got from racing and not just use it for you but others. You can also donate some money to the poor people on the streets and even spend some money on the church.

This is a good and awesome career to have because what I just said. So you now want this care or / job/ hobby to do in your life because to me in my opinion racing sounds cool to do for living. Racing is really cool to do to me.

What I wanna do when I grow up.

By Erick Diaz

Losing weight by playing football, you can lose weight fast. And easily you can lose calories by playing football. Getting athletic you can get athletic fast and easy and become the best on your team and you can train for 2 hours, eat and lose the calories and train again and you just need to stay healthy and athletic. Telling people about God you can tell people about God like your teammates and one team pray before every game and some dude on the LA chargers prayed so he can win the game and they ended up winning the game and that is the power of God that he can help us at all times. And my topic sentence is you can lose weight fast and easily.

To stay healthy to play football and. To tell people about God. My conclusion is I think that playing football is a way to lose weight, get athletic and tell people God and there are many more reasons why I picked this so football is a good sport to play for all the reasons why you should play football there is many teams and positions to play like QB RB and many more but you need to be really good to be in the NFL but you can get injured from a tackle and it really hurts when you get tackled to the ground very bad. So there are some good sides like winning and bad sides like

getting hurt. And getting athletic can help you in other sports like soccer, Swimming Golf, Baseball and many more sports and to tell people about God on other teams like if you win and they are sad you can tell them about God and losing weight, some guy could not play because he was overweight and played for the Indianapolis Colts for a few seasons. And that's why I want to play football when I grow up. I wanna play football until I can't anymore.

Job or Game

By Jameson Johnson

Did you know that As of 2023, YouTube has over 51 million Channels? Hi my name is Jameson and I would like to be a vlogger/gamer because of these three reasons. One, Video games help me calm down and not be stressed out. Two, I would not be stressed out or have so many responsibilities because of work. Three, I can spread the gospel through my videos. These are three reasons why I would like to be a video gamer/ vlogger. First, I like to play video games to calm down. Playing video games with my friends is the best way to calm down, have fun, and share my thoughts and feelings with my close friends, the ones I trust with my life. Second, I would not be stressed out and have a lot of responsibilities. I would not be stressed out about other jobs or waking up at a specific time or going to bed. I wouldn't have to worry about sending my children to a daycare or paying someone to watch them for the day.

Lastly, I can have my own time schedule for gas, church, groceries, sporting events and so on. I can spread the word of the Lord through my videos. Yes, I am christian and I can spread the word of the Lord through my videos and social media. I want to have everyone know who the Lord is and help fulfill the Lord's word in the Bible. I want to be a vlogger/ gamer because of these three reasons. One, Playing video games helps me calm down. The second reason is, I would not be stressed out and have a lot of responsibilities. Lastly, I can spread the word of the Lord through my videos.

5th grade Teacher and a basketball coach

By Kyra Kraus

I want to be a 5th grade teacher and a basketball coach when I grow up. So that I can get to teach my students on the classroom floor and the gym floor.

I want to be a 5th grade teacher because every morning I will get to see the look on the kids faces and their smiles that fill the room with joy. Most importantly, so I can teach them all the things they need to learn just like my teachers taught me. Next, I can teach them to be

respectful and nice to their teachers and their friends but most importantly their parents. Last but not least, kids pay attention to anything you teach as long as it is fun and entertaining.

Did you know that basketball was made on June 6th 1946 in New York? I want to be a basketball coach because I love to play basketball and I want my future students to love basketball too. Next I also want to be a basketball coach so that I can help people pursue their goals. Finally, I will gain new leadership skills as I go and help players with their skills and personality.

Next, I also want to be a 5th grade teacher so that I can teach kids about math because I love math and so should you. Secondly, so I can teach them about PE, long division and all of those different procedures that you need to go to sixth grade. Lastly, math skills can be used for every job there is. Employees have to use math for their job, but they do expect that people can think fast and critically and learn quickly.

In conclusion it would be so fun to be a fifth grade teacher and a basketball coach. I hope that you enjoyed this and learned a couple things. I hope I get these two wonderful jobs when I'm older.

Drumming

By Saige Kresge

Did you know that there are under 10% of girl drummers in the world so more than half are boys? Us girls need to stand out and be the best of the best. I want to be a drummer when I grow up. One part of being a drummer is the music. This paragraph is all about the music you can play a lot of different songs when you play the drums, the music I like to play is a blues beat. Which is a nice and slow beat and There is also pop music which is fast and upbeat. They are both different but still fun.

Next you have to get the right beat. There are a lot of different songs you can play slow, fast, in the middle and so much more. I have to get the right beat or else the whole song is messed up. I love every beat blues, pop, rock, and christians music. The music I love to play is a fast beat like pop and rock.

Next you have to get set up. You can set up your drums a lot of different ways big, small and in the middle. I have a drum set that is half way around me. You can also have a drum set that is all the way around you. If you are a beginner you will only have a small drum set.

Lastly, I think drumming is very unique especially for a girl, but you should definitely do drumming. It is fun, entertaining and you could become famous if you work really hard and do your best and push yourself to get great.

Veterinarian's

By Samantha Detig

Did you know that veterinarians have one of the highest job satisfaction rates or that they are more likely to be women than men. I would like to help animals because it is God's creation. I want to be a vet because I get to help animals and I love animals and I've always wanted to help animals. I want to help animals because if a pet is sick or hurt I could tell the owner.

If you have a pet and you take care of that pet then you are taking care of God's creation and you're taking care of God. I want to care about animals because God made animals and I want to care about God's creation because I care about God and God made us to be christ followers. I would care about animals because pet's give you company and you wouldn't be lonely. If you care about God you should care about his creation.

If you have a pet it can pick up on their owners mood's: snuggling up to you when you are feeling sad or licking your hand if they sense that you have anxiety. It's incredible just how much support animals can bring to your life. Animals such as cat's and dog's can have a deeply calming effect on human's and can often pick up on their owner's mood's. A dog or cat can help with loneliness and give you companionship and someone to talk to and sit with during the evening's. That's why I want to be a great vet when I grow up. Thank you.

When I grow up.

By Zoe Hollenbaugh

I would like to be a Preschool teacher when I grow up! The First reason I would like to be a Preschool teacher is Preschoolers are very easy to teach! The Second reason is Kids have GREAT imaginations! The Last reason is Kids are very sweet and respectful! This is why I would like to be a Preschool teacher when I grow up.

First, Children are very easy to teach! Kids are very easy to teach because they learn very simple things. Kids also know how to make learning fun! Kids can usually catch on to your teaching when you make it fun for them! Kids are usually very good at remembering things very quickly. Kids are very good at doing partner and individual activities!

Secondly, Children have great imaginations! I know this because kids tell very good stories with their imaginations! Kids have very good imaginations with toys, especially stuffed animals! Kids are also very good at making teachers or even other students with their imaginations! Kids can have so much fun playing with the imaginations they have! Kids can also make very good friends with their powerful

imaginations! Kids have so much fun learning with their imaginations!

My last reason is Children Kids are very sweet and respectful. I know this because kids are very kind to others when they want to play. Kids also are very respectful to teachers! Kids are very sweet and respectful when you ask them to do something! Kids can usually be very respectful at keeping their hands and feet to themselves. Kids are very good at cleaning up their messes.

This is why I would love to be a pre-school teacher when I grow up! The first reason is Kids are very easy to teach! The second reason is Kids have great imaginations! Last but not least, Kids are very sweet and respectful!

#### My Favorite Toy or Game

By Paige Dingus

Did you know that Monopoly had its origin in the early 20th century? My favorite toy or game is Monopoly. I like Monopoly because of the following reasons.

First, Free Parking is available any time. In Monopoly game rules, Free Parking is just a place to hang out where nothing happens, good or bad. The Free Parking for Monopoly hasn't stopped players from adding house rules. If you land on Free Parking you receive the money from the middle. When you receive it, you put the money in your jackpot. When you are on Free Parking, you don't have to pay anything. In Free Parking, you can earn how much in the middle whether \$1,000 or higher. If you get out of Jail, you have a chance to land on Free Parking. You can use the money from Free Parking to buy houses and hotels without getting bankrupt.

Second, the money is what you use. You start with \$1,500 that you can use for buying properties. You can get money by passing go or landing on Free Parking. The players are given \$1,500 which is divided into two of the \$500s, \$100s, and \$50s, six of the \$20s, five of the \$10s, \$5s, and \$1s. In Monopoly, if you are with a partner, your money is doubled. Different Monopoly games have different amounts of money. For example, Mario

Monopoly gives you 30 coins for buying properties. The money in the Monopoly game box is \$20,580. In Mario Monopoly, it includes a question mark space. In Mega Monopoly, it has \$1,000 bills.

Next, the properties that everyone wants are Park Place and Boardwalk. The properties in Monopoly are different sizes because of the different types of Monopoly games. In Mega Monopoly, they are 3-4 properties per color set. Disney Monopoly has the park attractions that are the most popular properties. The railroads in each Monopoly you can buy, then build train stations on those railroads. On properties, you can buy houses and hotels from the money you earned on Free Parking. The properties in the Triopoly game could possibly take hours to trade.

Finally, it was made first in the 20th century. Overall, I think Monopoly is my favorite toy or game because of these reasons, which are Free Parking, the money, and the properties that are in Monopoly.

#### Minecraft

By Caitlyn Williamson

Did you know that in minecraft, if you eat raw chicken, you have to eat it while crouching? As this trick apparently lowers your chance of getting poisoned. That there is a small chance in minecraft that if there is a small chance, (approximately 0.4%) that four chickens can hatch from an egg at the same time? My favorite toy or game to play with is minecraft. First is planning, when you get to a new world there are no buildings already there for you so you will have to plan for what you are going to do and what you are going to build and how you want it to look like and how it is going to have basic survival stuff in it and useful things in it too to play minecraft.

Next is creativity, when you walk around in a random biome or your favorite biome you have a free space to build things and create things that you can think of but also you can think of it as your own 3d canvas for you to make your engineering mark on in minecraft. Lastly math and engineering, minecraft teaches basic lessons about how long and how wide you want your

home to be, but also you can use tons of blocks for engineering in minecraft by using pistons, redstone, levers, sticky pistons, redstone torches, and buttons so minecraft uses math and engineering. So to sum it all up, it uses planning, creativity, math and engineering, basic thinking skills, and survival skills, so that is the whole reason why minecraft is my favorite game to play or toy to play with.

#### My Favorite Game

By Jezreel Contreras

My Favorite game is Bone Lab, it is a VR game. It was developed by "Stress Level Zero", it is a physics based game, you could try real experiments in the game, "example" if you push or try to lift something heavy it has mass, weight, and collision. Also if you select different skins, it could have strength, speed, or weight.

The combat is amazing, it works out your arms, the collision is good, it immerses you in the game and it's really fun.

The Story Line has tricky puzzles, one time I got stuck on a level for a day, they make you really think, also it uses math and situations that tricks you and it's hard.

When you start the game, you're in a dungeon room. As you go through it you can see all the experiments that the Boneworks team did, Boneworks was another game made by "Stress Level Zero". Anyways after you go on for a bit you go through some doors, you walk through them and you fall. You're in the next Level, what is this some place where they're guarding something? You sneak past all of them and you get to the door, you find an elevator you go in then A voice says "Leaving Boneworks Simulation" then the elevator drops. You make it out alive you are now in a lab the Bonelab, you complete all the task in the lab then you go through the door, you see a box with the labels Boneworks you break it open, then a voice says "now entering Boneworks office" then boom the box explodes and you launch up. You do some puzzles and you end up seeing someone, Jimmy. Jimmy is the voice we heard in the elevator and at the Boneworks box. He gives us something that goes on your arm, he sends you

to complete some stuff you get characters and then he takes you to the void where anything is possible and he says create and have fun and that's how it ends.

#### Favorite game

By Malyk Madison

First, I chose my favorite game because it will be a fun learning experience for me. I will be learning eye-hand coordination to help me with my hand quickness. I will be learning how to get better at the game that I play. I could also learn secrets in-game that I never knew about. I can learn secrets to the game that I might have not heard of all or some of these secrets.

Next, Me and my friends will get to play together and help each other win. Other people will get to learn game tips from me and I will get to play with them. Me and my family will get to have fun while still being able to spend time with each other. I will be able to play with my family, friends, and other people.

Finally, I will get to teach other players who are new how to play the game. I will get to teach my younger siblings how to play and get better at the game. My parents will get to teach me things I never knew how to do. I can teach my friends, family, and other people. Lastly, I chose my favorite game but the question is what would you choose? Job or career? I personally think you should pick game but it's your choice.

## Be a part of the 2024 Junior Journal

Would you like your class to be part of the 2024 Junior Journal?

The Junior Journal is published every year in March during Newspapers in Education Week and is inserted into the Daily Journal.

Components include a writing contest with two options for topics, an art (drawings, photos, collages) contest and the design-an-ad contest.

Many categories have prizes for the winning student.

If you would like your class to participate next year, contact Amy May (writing and

art contests) at 317-736-2726 or amay@dailyjournal.net, or the Daily Journal Advertising Department (design-an-ad contest) at 317-736-2730
